

2025-26 Gull Lake Virtual Partnership Course Catalog

Updated: June 12, 2025

Innovative Programs

Full Spectrum Overview

LEARNING AT GULL LAKE CONTINUES TO GROW AND EXPAND OPPORTUNITIES FOR ALL STUDENTS!

The Innovative Programs have flourished at Gull Lake and continue to grow. Each year we add more new and exciting opportunities to help students ignite and personalize learning. All courses in this catalog are taught by highly qualified certified teaching staff who lead each course according to needs and requirements.

GLVP is a partnership, including students, educators, parents, families, and community and business leaders.

All courses in this catalog have been approved by the Gull Lake Community Schools Board of Education, and are open to students in elementary, middle, and high school based on enrollment criteria (full-time, part-time, traditional GLCS public students, and shared time students). Student course selections are based on the rules for essential/non-essential course enrollment. It is important that students, staff, and parents understand the definitions of essential and non-essential in the legend below. Other approved online vendors may be requested (see Michigan's Online Course Catalog).

We strive to offer meaningful and personalized learning opportunities for students to grow and thrive as they continue to discover their own unique talents. Our courses offer students the chance to strengthen their skills and abilities as they move along their educational pathways.

LEGEND - ICONS

\Q	Application	Virtual students may choose application opportunities, and interact with teachers, peers, and community experts to apply their learning. GLVP course applications represent a collaborative effort between certified teachers and community experts. These courses have application options. As always, a detailed transportation plan is provided for applications upon request.
	100% Virtual	Fully online courses without application opportunities.
f e	Independent Study	Independent study is for students in grades 9-12. Independent study is a type of learning experience that is academic in nature that allows the pupil an opportunity for self-directed learning.
\bigstar	Gold Star Reviews	These courses consistently result in high satisfaction reviews by staff and students.
NEW NEW NEW NEW NEW	New Courses	These NEW courses for the 2025-26 schools.
EXAM	In-person Final Exams	These courses include a proctored final exam in-person at the Gull Lake Virtual Lab.

LEGEND - Platform

	ND - Platform		
AL	ALEKS:	Assessment and LEarning in Knowledge Spaces is a Web-based assessment and learning system. ALEKS uses adaptive questioning to quickly and accurately determine exactly what a student knows and doesn't know in a course. ALEKS then instructs the student on the topics he/she is most ready to learn. As a student works through a course, ALEKS periodically reassesses the student to ensure that topics learned are also retained. ALEKS courses are very complete in their topic coverage and ALEKS avoids multiple-choice questions.	
BK	Bookshark:	BookShark is a complete, literature-based, curriculum. BookShark uses a variety of educational resources including literary fiction and nonfiction, biographies, illustrations and hands-on experiments to deliver an engaging and complete education that extends beyond textbook memorization.	
ED	eDynamic:	eDynamic Learning is the largest publisher of Career and Technical Education (CTE) and elective courses in North America for middle and high schools. eDynamic offers schools unique and specialized digital courses for students to access an enriching, well-rounded cross-cutting skills curriculum.	
EW	Essentials in Writing:	Essentials In Writing is an engaging homeschool writing curriculum that combines video, virtual, and offline lessons. It is a complete writing program that includes grammar and composition instruction.	
GL	GLVP:	GLVP courses in GLOBE have been written by our own highly qualified teaching staff, specifically for our students. GLOBE is the learning management system for GLVP that offers an online learning environment where teachers can create original content for a variety of courses.	
LI	Lincoln:	Lincoln Empowered course provides students with proven, standards-based instruction the encourages excitement and creativity. Gull Lake offers Lincoln courses in grades K-12. Many of these courses will come with a course supply kit to assist the parent learning coach with extensions of learning at home, to support the online coursework.	
MF	MusicFirst:	First: MusicFirst Classroom is a comprehensive learning management system (LMS) for 6-12 music education. It combines learning management software with engaging content and powerful integrated software to help educators monitor student progress, make lesson plans, and create assignments.	
MU	Math U See:	Math U See uses a mastery approach which allows students to build a strong foundation of fundamental concepts and skills before moving on. The curriculum integrates a distinctive set of hands on manipulatives with strategies presented through lesson-by-lesson videos, workbooks and digital resources. This approach is designed to appeal to all types of learners.	
MV	Michigan Virtual:	Michigan Virtual offers a variety of courses at the middle school and high school levels. They emphasize quality and comprehension in their courses. Michigan Virtual courses can be selected in trimester format for the traditional building students, in addition to the semester format offerings. MV utilizes a student learning portal that works with the Blackboard online learning management system.	

Course Description Explanation

Course Descrip	tion Explanation
Essential:	Essential courses are open to full-time students only. These courses meet the State's requirement for grade-level progression in core content areas.
Non-Essential:	Non-essential courses (often called electives) are open to all students (full-time, part-time, home school, traditional GLCS public students, nonpublic/shared time students). Non-essential courses do not meet the State's requirements for grade-level progression in core content areas. All dual enrollment coursework and AP coursework are considered non-essential.
Full-time Students:	Have 6-course spots per semester. As full-time public school students, these students are expected to meet the requirements of full-time public school students which includes participating in state-required assessments. Full-time students are expected to be working towards grade-level progression. Full-time students are expected to have two essential courses at all times in their schedules. Full time could also be a dual-enrolled college student with 10 credits and their concurrent.
Part-time Students:	Have an opportunity to take 1-4 courses, and may choose from non-essential courses. This enrollment limit pertains to our shared time student population i.e. part-time, homeschool, etc.
Course/Schedule Changes:	Students and parents are encouraged to make thoughtful decisions about the student's schedule. Schedules are final two weeks into each semester. This allows students the first two weeks of the semester to make any course changes needed.
Withdrawals:	Any course withdrawals after Count Day each semester will result in a Withdraw (no credit) being noted on the Gull Lake transcript. Unless the student is withdrawing from Gull Lake Community Schools altogether, no course withdrawals will be allowed beyond the fourteenth week of the course unless there are documented extenuating circumstances approved by staff.
Grading:	Every course will have a course syllabus that indicates the grading system for the course. The GLVP Student Handbook provides additional information on the grading scale for GLVP.
Dual Enrollment:	Dual enrollment provides students in grades 9-12 the opportunity to take college courses as part of their schedule, with tuition support from Gull Lake. Local partners include Kalamazoo Valley Community College, Kellogg Community College, and Western Michigan University. Other post-secondary institutions may be available if approved by Gull Lake. It is important to have students work through their Gull Lake college advisors to ensure they are completing the steps appropriately and in a timely manner to be eligible for dual enrollment opportunities. Part-time students have a limit of three college courses per semester. Part-time students may not take more classes in the second semester than they had in the first semester. Full-time students (including Early College students) may take a maximum of five college courses per semester, depending on the student's educational development plan and approval of Gull Lake advisors. For a complete list of dual enrollment rules, see the dual enrollment contract. All students participating in dual enrollment and/or early college must continue to have a concurrent Gull Lake course every semester. Full time could also be a dual-enrolled college student with 10 credits and their concurrent.
AP:	All courses designated as AP (Advanced Placement) are College Board approved. This means colleges may grant placement and course credit to students who obtain qualifying scores on the AP examination(s).
NCAA:	All courses designated as NCAA have been reviewed and approved by the National Collegiate Athletic Association Eligibility Center.
MMC:	All courses designated as MMC (Michigan Merit Curriculum) meet content expectations required by the State of Michigan for public high school graduation requirements. **Required courses for diploma-seeking students.

Application opportunities are optional learning experiences that allow virtual students to meet and interact with teachers, peers, and community experts to apply their learning. GLVP course applications represent a collaborative effort between certified teachers and community experts. A transportation plan is provided for applications; contact your advisor to create your detailed plan.

Courses in the GLVP Course Catalog noted with the icons to the right have a corresponding optional application to the virtual course or Independent Study.

Essential Virtual Course Descriptions

♦ English Language Arts **♦**

English Language Arts 1 - LI | 🖈 | 🍳

English Language Arts 1 focuses on developing reading, writing, spelling, speaking, and listening skills. Students will use rhyming, blending, and segmenting to develop the foundation needed to become an emergent reader. Students will read prose, poetry, and informational texts for comprehension. Students also learn to spell new words using various spelling rules. They will practice their writing skills by learning grammar rules for noun usage, personal possessive and indefinite pronouns, verb tenses, capitalization, commas, and end punctuation. In doing so, they learn to produce and expand sentences and will explore writing opinion pieces, informational pieces, and narratives. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 01 | Essential | Full Year | Platform: Lincoln

English Language Arts 2 - LI | 🖈 | 🍳

Reading, writing, spelling, speaking, and listening are the central concepts covered in Lincoln Empowered English Language Arts 2. In this course, students continue to develop their phonemic awareness by learning to recognize word families, word origins, and irregularly spelled words. While reading, students work to distinguish fact from opinion, decipher an author's purpose, and identify the main topic of a multi-paragraph text. Students sample multiple genres of literature, including fiction, nonfiction, poetry, folk tales, and fables, while exploring story elements such as plot, setting, characterization, and the author's point of view. Students develop their writing skills by composing narrative, argumentative, and informative essays, as well as creative writing pieces. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 02 | Essential | Full Year | Platform: Lincoln

English Language Arts 3 - LI | 🖈 | 🍳

English Language Arts 3 focuses on expanding students' reading, writing, spelling, speaking, and listening skills. In this course, students interpret texts in more complex ways, by identifying cause and effect and distinguishing shades of meaning in figurative language. This course introduces students to new genres, including opinion pieces, biographies, and blogs, while they continue to work with narratives, fiction, and informational texts. An emphasis is placed on grammar, punctuation, and spelling. English Language Arts 3 also introduces students to new forms of writing, such as scripts, autobiographies, and outlines. They practice drafting and revising their writing through the development of journal entries, short stories, opinion pieces, and narratives. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 03 | Essential | Full Year | Platform: Lincoln

English Language Arts 4 - LI | 🛣 | 🍳

Students in English Language Arts 4 focus on expanding reading, writing, spelling, speaking, and listening skills, with a heavy emphasis on solidifying writing skills. They will learn and apply the writing process to create narrative, descriptive, opinion, persuasive, and informative pieces; while correctly using introduction, body, and conclusion paragraphs. Through writing, they will continue to master the conventions of English grammar and spelling. While reading various genres, students will identify, describe, and analyze story elements and compare and contrast these elements. Students will develop research skills by conducting short research projects, taking notes during research, and creating bibliographies. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 04 | Essential | Full Year | Platform: Lincoln

English Language Arts 5 - LI | 🖈 | 🍳

In English Language Arts 5, students solidify foundational skills in reading, writing, spelling, speaking, and listening. Students read a variety of texts, including fiction, nonfiction, and informational texts. Through these texts, they learn to make inferences and analyze multiple accounts of the same event. Students will write a five-paragraph essay and an effective thesis statement. They will follow the writing process to develop essays, create outlines to organize their ideas, and revise and improve their original draft. This course also teaches and reinforces grammar and spelling rules. Students develop research skills by learning to use notecards for research, gathering information about the same topic from multiple sources, and understanding plagiarism and the importance of writing in their own words. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 05 | Essential | Full Year | Platform: Lincoln

English Language Arts Bookshark 1 - BK | 🖈 | 🏻

BookShark Language Arts takes a natural approach, relying on the time-tested techniques of reading and discussing, copywork, and dictation. Grammar and mechanics are learned in the context of literature and creative expression assignments. Topics include phonics, spelling, writing mechanics and creative expression. Students will move to reading advanced short words and short chapter books. With help, students will also "write" their first short stories. Writing lessons come from the books your students read throughout the year. As a result, they remember and comprehend more and more. Hands-on materials are included with this course.

Grades: 01 | Essential | Full Year | Platform: Bookshark

English Language Arts Bookshark 2 - BK | 🖈 | 🏻

BookShark Language Arts takes a natural approach, relying on the time-tested techniques of reading and discussing, copywork, and dictation. Grammar and mechanics are learned in the context of literature and creative expression assignments. Topics include phonics, spelling, writing mechanics and creative expression. Students will develop and organize their thoughts, construct basic sentences and write simple paragraphs. Writing lessons come from the books your students read throughout the year. As a result, they remember and comprehend more. Hands-on materials are included with this course.

Grades: 02 | Essential | Full Year | Platform: Bookshark

English Language Arts Bookshark 3 - BK | 🔀 | 🏻

BookShark Language Arts takes a natural approach, relying on the time-tested techniques of reading and discussing, copywork, and dictation. Grammar and mechanics are learned in the context of literature and creative expression assignments. Topics include phonics, spelling, writing mechanics and creative expression. A complete creative expression and pre-writing program, along with other hands-on materials, are included with this course.

Grades: 03 | Essential | Full Year | Platform: Bookshark

English Language Arts Bookshark 4 - BK | 🖈 | 🍳

BookShark Language Arts takes a natural approach, relying on the time-tested techniques of reading and discussing, copywork, and dictation. Grammar and mechanics are learned in the context of literature and creative expression assignments. Topics include phonics, spelling, writing mechanics and creative expression. Students will write paragraphs with more independence and continue to develop a love of reading. Writing lessons come from the books your students read throughout the year. As a result, they remember and comprehend more and more. Hands-on materials are included with this course.

Grades: 04 | Essential | Full Year | Platform: Bookshark

English Language Arts Bookshark 5 - BK | 🏻

BookShark Language Arts takes a natural approach, relying on the time-tested techniques of reading and discussing, copywork, and dictation. Grammar and mechanics are learned in the context of literature and creative expression assignments. Topics include spelling, writing mechanics and creative expression. Watch your children's writing style expand as they learn about higher-level techniques like similes, metaphors and hyperbole. Students have transitioned from "learning to read" to "reading to learn." The Readers with this Language Arts 5 course tie directly to the history content for the Social Studies 5 course. Hands-on materials are included with this course.

Grades: 05 | Essential | Full Year | Platform: Bookshark

English Language Arts Bookshark K - BK | 🖈 | 🍳

BookShark Language Arts takes a natural approach, relying on the time-tested techniques of reading and discussing, copywork, and dictation. Grammar and mechanics are learned in the context of literature and creative expression assignments. Topics include phonics, spelling, vocabulary development, creative expression and writing mechanics. Hands-on materials are included with this course.

Grades: K | Essential | Full Year | Platform: Bookshark

English Language Arts K - LI | 🖈 | 🛇

English Language Arts K encompasses reading, writing, speaking, spelling, and listening skills for students who are emerging learners. This course places a heavy emphasis on upper and lowercase letter identification and letter sounds. This course focuses on building reading skills through the use of high-frequency sight words. Through grade-level appropriate readings, students explore story elements and the ways in which pictures relate to text. They also learn to summarize a text and to compare and contrast characters, events, and ideas within texts. This course teaches foundational grammar and writing skills, including proper capitalization, spacing between words, and sentence punctuation. Students learn to print words and write complete sentences. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: K | Essential | Full Year | Platform: Lincoln

Math 1 - LI | ★ | �

In Mathematics 1, students begin to learn mathematics in a more formal way. They focus on rote counting to 120 and practice reading and writing these numbers. In addition to strengthening addition and subtraction skills, they compare two-digit numbers based on place values, measure lengths, identify two-dimensional and three-dimensional shapes, and explore fractions by dividing those shapes into halves and quarters. Students will also organize, represent, and interpret data in pictures, tables, and charts. They will also begin to tell and write times in hours and half hours. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 01 | Essential | Full Year | Platform: Lincoln

Math 2 - LI | ★ | �

In Mathematics 2, students begin to develop the skills to solve problems mentally and to explain how they solved a problem aloud or through writing. They count to 1,000 and identify even and odd numbers. Students discover multiple strategies for adding and subtracting numbers and determine which strategies work best for various problem types. They use standard units of measurement to express the length of objects in inches, feet, centimeters, and meters. Students will be presented with word problems involving money. They will also explore fractions by dividing shapes into halves, thirds, and fourths. They are introduced to new ways of representing data, including line plots, picture graphs, and bar graphs. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 02 | Essential | Full Year | Platform: Lincoln

Math 3 - LI | ★ | �

Students in Mathematics 3 focus on multiplication and division, as this course aims to build strong foundational skills in these areas. Students explore the relationship between multiplication and division and practice using the order of operations to solve problems, including one- and two-step word problems. In addition to using place value to perform multidigit arithmetic, students round numbers to the nearest ten or hundred. They refine their mathematics skills in relation to money by making change using a combination of bills and coins. Students learn area and perimeter and work with fractions. Finally, students explore the ways in which various types of data can be displayed. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 03 | Essential | Full Year | Platform: Lincoln

Math 4 - LI | ★ | �

In Mathematics 4 students refine their skills in the areas of place value, measurement, geometry, fractions, and decimals. They use the order of operations to solve problems with whole numbers up to 1 million, and they explore factors and multiples ranging from 1 to 100. Students use equations, arrays, and area models to explain multiplication calculations. They compare multidigit whole numbers, fractions, and decimals using the symbols for greater than, less than, and equal to. Students practice converting measurements, such as feet to inches. Students are introduced to the protractor, which they use to measure angles in whole number degrees. Students learn to identify right triangles, and they sketch angles, lines, segments, and rays. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 04 | Essential | Full Year | Platform: Lincoln

Mathematics 5 focuses on developing students math skills and problem-solving strategies. Problems and activities are designed to get students reasoning abstractly and quantitatively, constructing arguments, and modeling with mathematics. Students add, subtract, and multiply fractions, divide fractions by whole numbers, and divide whole numbers by fractions. They perform multiple operations with decimals in addition to comparing, ordering, and rounding them. They use exponents to denote powers of 10. Students are introduced to volume and how to calculate it and classify two-dimensional shapes into categories. They also graph data on a plot line and the coordinate plane, using graphs to solve real-word and mathematical problems. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 05 | Essential | Full Year | Platform: Lincoln

Math K - LI | 🖈 | 🖗

In Mathematics K, students explore the world of mathematics all around them. Students begin to develop foundational mathematics skills such as number identification and recognition and rote counting to 100 by memory. They learn the difference between more than and less than and explore the ways in which numbers are broken down into various components. Students compare measurements, such as longer and shorter and heavier and lighter. They begin to develop problem-solving skills as they engage with simple addition and subtraction equations and word problems. Finally, students are introduced to basic geometry and learn the names and basic attributes of shapes. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: K | Essential | Full Year | Platform: Lincoln

Math U See 1 - MU | ★ | ♥

Math U See 1 - MS Math U See uses a mastery approach which allows students to build a strong foundation of fundamental concepts and skills before moving on. The curriculum integrates a distinctive set of hands on manipulatives with strategies presented through lesson-by-lesson videos, workbooks and digital resources. This approach is designed to appeal to all types of learners. Math U See first grade focuses on building a strong foundation for the concepts of single-digit addition and subtraction. Systematic teaching strategies are used to help students commit addition and subtraction facts to memory.

Grades: 01 | Essential | Full Year | Platform: Math U See

Math U See 2 - MU | ★ | �

Math U See uses a mastery approach which allows students to build a strong foundation of fundamental concepts and skills before moving on. The curriculum integrates a distinctive set of hands on manipulatives with strategies presented through lesson-by-lesson videos, workbooks and digital resources. This approach is designed to appeal to all types of learners. Concepts to be learned include multiple-digit addition and subtraction and place value. Within this, students will learn about time, money and measurement.

Grades: 02 | Essential | Full Year | Platform: Math U See

Math U See 3 - MU | ★ | ♥

Math U See uses a mastery approach which allows students to build a strong foundation of fundamental concepts and skills before moving on. The curriculum integrates a distinctive set of hands-on manipulatives with strategies presented through lesson-by-lesson videos, workbooks and digital resources. This approach is designed to appeal to all types of learners. Students go beyond memorization to develop a deeper mathematical understanding. In 3rd grade the emphasis is on multiplication - single-digit facts and multiple-digit multiplication facts.

Grades: 03 | Essential | Full Year | Platform: Math U See

Math U See 4 - MU | ★ | �

Math U See uses a mastery approach which allows students to build a strong foundation of fundamental concepts and skills before moving on. The curriculum integrates a distinctive set of hands on manipulatives with strategies presented through lesson-by-lesson videos, workbooks and digital resources. This approach is designed to appeal to all types of learners. In 4th grade there will be a big focus on division and geometry concepts.

Grades: 04 | Essential | Full Year | Platform: Math U See

Math U See 5 - MU | ★ | ♥

Math U See uses a mastery approach which allows students to build a strong foundation of fundamental concepts and skills before moving on. The curriculum integrates a distinctive set of hands on manipulatives with strategies presented through lesson-by-lesson videos, workbooks and digital resources. This approach is designed to appeal to all types of learners. In 5th grade there will be a heavy emphasis on fractions and the basic operations with fractions.

Grades: 05 | Essential | Full Year | Platform: Math U See

Math U See K - MU | ★ | �

Math U See Kindergarten - MS The Math U See Kindergarten level is an introduction to "doing math". Students will learn how to write numerals and basic counting. Additionally, students will be introduced to addition and subtraction, skip counting, geometric shapes, and telling time. The curriculum integrates a distinctive set of hands-on manipulatives with strategies presented through lesson-by-lesson videos, workbooks and digital resources. This approach is designed to appeal to all types of learners.

Grades: K | Essential | Full Year | Platform: Math U See

♦ Science **♦**

Science 1 - LI |

This class extends students' exploration of the natural world. Along the way, they practice making predictions and observations, experimenting, and using scientific tools and problem-solving skills. Students investigate ecosystems and habitats, identifying the five basic needs of all living things, the importance of natural resources, and the interactions of human beings and the environment. This course also introduces the water cycle and the Earth as a body in space. Students observe matter and describe its properties and states, and they discover the properties of light and sound. Study of force and motion enable them to define the terms and explain the effect of different amounts of force and also how moving objects stop. Finally, students develop their ability to distinguish fact from opinion and recognize the relation of cause and effect. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 01 | Essential | Full Year | Platform: Lincoln

Science 2 - LI |

This class encourages students to make sense of the world around them by observing and experimenting. Through focused readings and hands-on activities, students explore matter, energy, and physical and chemical changes. They study interdependence in ecosystems, such as the role of bees in pollination and the use and conservation of natural resources. Students examine the water cycles including evaporation and condensation and the life cycles of such living things as frogs, butterflies, and plants. They research topics and formulate questions, make predictions, and then use scientific tools to observe and measure their experiments. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 02 | Essential | Full Year | Platform: Lincoln

Science 3 - LI |

Science 3 guides students on an exploration of the natural world, its animals, its plants, and its terrain. They learn how clouds form, what causes the cycles of seasons and of day and night on Earth, and that light and sound are actually energy. Students examine the Earth's eight major biomes and identify how adaptations help plants and animals to survive varying conditions. Students recognize the information fossils can provide about the Earth's past and use geologic time scales to identify the eras when fossilized organisms lived. They explain how chemical reactions can change the properties of matter, and they investigate energy, magnetism, and electricity. Finally, students research topics and formulate questions, make predictions and observations, experiment and measure using scientific tools, and draw inferences and identify patterns based on their scientific inquiries. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 03 | Essential | Full Year | Platform: Lincoln

Science 4 - LI |

Science 4 lays a foundation for future excellence in the STEM fields by introducing technology and engineering concepts, such as simple and complex machines and the steps of the engineering design process. This course encourages students to become innovative problem-solvers equipped with the skills and knowledge necessary to address twenty-first century issues. They expand their knowledge and understanding of topics in the areas of physics, chemistry, Earth science, ecology, biology, and space science. Students investigate genetics and the physical characteristics of living things, ecosystems and extinction, agriculture and sustainable resources, and pollution and recycling. They get to know the Earth's landforms and the types of rocks and soil, and extend their learning beyond the Earth to the solar system and the Milky Way. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 04 | Essential | Full Year | Platform: Lincoln

Science 5 - LI |

In Science 5, students build their knowledge by crafting models, conducting experiments, creating terrariums, and making electromagnets. They learn about plant and animal cells and their functions, photosynthesis, and the roles of producers, consumers, and decomposers in an ecosystem. Students explore the global water cycle, the negative impacts of weather, and the relationship between weather and climate. They deepen their understanding of their home planet by investigating landforms, volcanic activity, the layers of the Earth's atmosphere and geosphere, the tilt of the Earth's axis, the impacts of its revolution around the Sun, and the Sun's role as source of energy for life on Earth. Students are introduced to elements and core concepts of physics as energy transformation, gravitation, and Newton's first and second laws of motion. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 05 | Essential | Full Year | Platform: Lincoln

Science K - LI |

Science K is a course that introduces emerging learners to the knowledge and skills that help them discover and understand the natural world around them. Students learn to formulate questions, to predict, and to experiment. They use basic scientific tools, such as a magnifying glass, a balance scale, and a thermometer, to make observations and draw on those observations to identify causes and effects and communicate their findings. In so doing, students distinguish between factual statements and opinions. Finally, students discover the characteristics of matter, including states of matter, (solid, liquid, gas) and force, including the difference between a push and a pull. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

 $Grades:\ K\mid Essential\mid Full\ Year\mid Platform:\ Lincoln$

♦ Social Studies ♦

Social Studies 1 - LI |

Social Studies 1 leads students beyond their local community to consider their place in their state, the nation, and the world. They explore the function and characteristics of government in the United States. Students also learn how to ask questions and gather information to understand history. The course focuses on developing students knowledge of the interplay between the physical world and human societies, as they learn basic geography skills, such as map reading, and examine the impact of the environment on how and where people live and how regional variations drive trade in both goods and services. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 01 | Essential | Full Year | Platform: Lincoln

Social Studies 2 - LI

Social Studies 2 empowers students to become productive citizens by developing their knowledge and skills in civics, history, geography, and economics. They deepen their understanding of the U.S. government by explaining the role of the three branches of government and of the U.S. Constitution. They begin to think like historians by identifying reliable sources, crafting compelling questions, distinguishing fact and opinion, and using timelines to structure series of events. Finally, students learn core concepts of economics, including supply and demand, scarcity, and cost and benefits, as well as the functions of banks, and relate these concepts to individuals and communities. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 02 | Essential | Full Year | Platform: Lincoln

Social Studies 3 - LI |

Social Studies 3 focuses on the United States, including its government and its laws. Students are encouraged to think about what it means to be productive, responsible citizens of both the nation and their own local communities. To support their learning about U.S. history and differing cultures and perspectives, students are taught to evaluate the validity of sources, especially websites; to develop and research compelling questions on historical topics; to work with timelines; and to distinguish between fact and opinion. Finally, students expand their map-reading skills and learn the fundamentals of financial literacy. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 03 | Essential | Full Year | Platform: Lincoln

Social Studies 4 - LI |

Social Studies 4 introduces students to critical analysis, as they develop more detailed knowledge of U.S. and world history. Students assess and use a wide variety of primary and secondary sources to research compelling questions. They learn the rights and responsibilities of citizens and how people and groups can work together to accomplish common goals. Students also explore how regional differences in physical environment and culture affect how people live and work. This course fosters a understanding of geography, maps of various kinds, and scales. Students also gain an understanding of core aspects of economics, including resources, production, consumption, and international trade. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 04 | Essential | Full Year | Platform: Lincoln

Social Studies 5 - LI |

Social Studies 5 puts American history front and center, as students learn about the Native American civilizations of the Americas, the discovery of the New World by European explorers, the founding of the United States, westward expansion, and the coming of the Industrial Revolution. They refine their ability to distinguish fact from opinion in the context of historical investigation. Students also broaden their understanding of government and they identify important symbols of the United States. Civic responsibility is woven throughout the curriculum, and students recognize the value of public service and the traits of good leaders. Students also explores the themes, tools, and techniques of geography and learn how human interaction with the environment has caused change. Finally, they will learn how the U.S. economy functions. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Grades: 05 | Essential | Full Year | Platform: Lincoln

Social Studies Bookshark 5 - BK | 🏻

BookShark Social Studies takes a natural approach to learning about history. Students have transitioned from "learning to read" to "reading to learn." The Readers that come with the English Language Arts 5 course tie directly to the history content for this Social Studies 5 course. Students will learn about the social forces and cultural influences that shaped early America. Hands-on materials are included with this course. Note: You must also select BookShark ELA 5 if selecting this course.

Grades: 05 | Essential | Full Year | Platform: Bookshark

Social Studies K - LI |

Social Studies K introduces emerging learners to the knowledge and skills that help them to become active and valued participants in their community. They explore the concept of good citizenship and values such as respect, democracy, cooperation, and equality in the context of the family and the local community. This course lays the foundation for understanding the past by teaching the importance of a sequence of events, introducing historical figures, and developing students skill in distinguishing fact and opinion. Finally, students learn about the world around them, including how geography influences society, how maps represent places, and how communities rely on trade in goods and services. This course includes a printed Parent Teacher Guide and materials that will help support student learning.

Non-Essential Virtual Course Descriptions

Back to Basics K-5: Homesteading - GL | 🖈 | 🍳

Join us for an exciting journey into the world of homesteading! In this online course, students will learn essential skills like gardening, raising animals and crops, gathering food, and crafting with natural materials. We will explore how to grow our own food, raise animals, and create useful items from everyday resources. Students will gain a greater appreciation for the skills that have sustained families for generations. Get ready to discover the joy of self-sufficiency! This online course delivers engaging assignments, quizzes and fun activities.

Grades: K 01 02 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Being a Successful Online Learner 3-5 - GL |

This course will cover a broad range of topics for online learning success: keyboard skills, digital citizenship, computer basics and Google Apps, study skills, time management for an asynchronous schedule, effective online communication, understanding a personal digital footprint. Students will be able to demonstrate an understanding of what virtual learning encompasses and the skills needed to succeed, with a focus on success within their GLVP courses. Understanding digital citizenship and leaving a positive digital footprint will be key factors for this age group, as well as learning independent study skills and using their computer and keyboard as tools.

Grades: 03 04 05 | Non-Essential | First or Second Semester | Platform: GLVP

Being a Successful Online Learner K-2 - GL |

This course will cover a broad range of topics for online learning success: keyboard skills, digital citizenship, computer basics and Google Apps, study skills, time management for an asynchronous schedule, effective online communication, understanding a personal digital footprint and more. Understanding digital citizenship and leaving a positive digital footprint will be key factors for this age group, as well as learning independent study skills and using their computer and keyboard as tools. Students will have the opportunity to collaborate with each other, receive one-on-one help from the instructor, and create relevant work that relates to their everyday, online learning environment.

Grades: K 01 02 | Non-Essential | First or Second Semester | Platform: GLVP

Engineering Adventures: 3-5 Structure & Function - GL |

In this exciting online course, students will become engineers, exploring how the world's structures are designed and built. From bridges to buildings, we'll investigate the forces that shape our world, the materials used, and how engineers solve real-world problems by designing solutions that are strong, efficient, and functional. Students will learn about the basic principles of force, stability, and design. Along the way, students will engage in challenges that test their creativity and problem-solving skills.

Grades: 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Engineering Adventures: K-2 Problem-Solving and Design Thinking - GL |

Engineering Adventures is a fun and hands-on online course where young learners explore the amazing world of engineering! Through playful projects and creative problem-solving, students will discover how things work and build exciting creations. This course is designed to spark curiosity and imagination while introducing simple engineering ideas in a way that's perfect for curious kids.

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

Engineering and Design with Cardboard: 3-5 - GL |

Unleash your inner architect and engineer with Engineering and Design with Cardboard! Cardboard has never been so captivating! This course is perfect for budding designers, builders, and problem-solvers who want to explore the intersection of form, function, and creativity. This engaging online STEM course challenges students to design and build architecturally-inspired cardboard furniture, clothing, and even animals. Guided by the steps of the engineering design process, they'll research styles, brainstorm ideas, prototype, and construct full-scale projects using only cardboard, basic tools and Chomp Saw, a child safe Power tool designed to work with cardboard. With limited materials and tools, students will cultivate their industrial design skills as they work within constraints to meet the functional, aesthetic, and economic benefits of their projects. Whether it's a towering hat, a moving vehicle, or an interactive game, the final cardboard creations allow students to showcase their innovative designs and bring their ideas to life.

Grades: 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Engineering and Design with Cardboard: K-2 - GL |

Unleash your inner architect and engineer with Engineering and Design with Cardboard! Cardboard has never been so captivating! This fun, hands-on online course is perfect for young designers, builders, and problem-solvers who love to explore new ideas through the discovery of intersection of form, function, and creativity. This engaging STEM course challenges students to design and build architecturally-inspired cardboard furniture, clothing, and even animals. Guided by the steps of the engineering design process, they'll research styles, brainstorm ideas, prototype, and construct full-scale projects using only cardboard, basic tools and Chomp Saw, a child safe power tool designed to work with cardboard. With limited materials and tools, students will cultivate their industrial design skills. Whether it's a towering hat, a moving vehicle, or an interactive game, the final cardboard creations allow students to showcase their innovative designs and bring their ideas to life.

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

Engineering and Design: 3-5 Wheeled Rides - GL |

Unleash the child's creativity and problem-solving skills with this exciting course. This online course lets students explore the world of engineering through hands-on building and design. they'll create modular, wheeled projects—like carts, bikes, and more—using simple tools to assemble and test their designs. As they build, students will learn engineering concepts, improve their coordination, and develop critical thinking skills. The course encourages creative exploration while teaching how to problem-solve, plan, and execute projects from start to finish. With fun and interactive online lessons, this course helps students gain a deeper understanding of design principles while sparking a lifelong curiosity for engineering and innovation.

Grades: 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Engineering and Design: K-2: Wheeled Rides - GL |

Unlock the child's inner engineer in this engaging online course, combining play and learning in a fun and interactive way. Through engaging online lessons, the young student will design and build modular, wheeled creations, from simple carts to bikes, using just a single hex tool for easy assembly. As they build, they'll strengthen motor skills, coordination, and problem-solving abilities. Online lessons are designed to introduce engineering and design concepts while encouraging creativity and hands-on exploration. With the perfect mix of fun and learning, this course helps young minds develop balance, agility, and a love for discovery, all while sparking curiosity about the world of engineering.

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

INEW Field Experiences: Arts & Tech K-5 - GL |

In this exciting online course, students will explore the creative world where art and technology meet in the Great Lakes region! Through fun lessons and activities, students will discover how technology is changing the way we create art, music, and designs. They'll also have the opportunity to attend optional field experiences showcasing the region's unique creativity and outdoor adventures. With hands-on activities and outdoor explorations, students will see how art, technology, and culture come together to inspire new ideas and spark their imagination!

Grades: K 01 02 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Foundations of Critical Thinking 3-5: Problem-Solving Playground - GL |

Foundations of Critical Thinking 3-5: Problem-Solving Playground is a dynamic online course designed to equip students with essential thinking skills that will help them tackle problems with creativity, logic, and confidence. Through a variety of online activities, puzzles, real-world scenarios, and interactive lessons, students will learn how to approach challenges, analyze information, and make thoughtful decisions.

Grades: 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Foundations of Critical Thinking K-2: Play, Solve, Grow - GL |

Foundations of Critical Thinking K-2: Play, Solve, Grow introduces young learners to the exciting world of problem-solving, reasoning, and making thoughtful decisions. This engaging online course is designed to help children develop essential critical thinking skills in a fun and interactive way. Through storytelling, games, puzzles, and guided activities, students will practice thinking creatively, asking important questions, and working collaboratively to solve problems.

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

Introduction To Typing 3-5 - LI |

In the Introduction to Typing course, students study the proper typing techniques in order to increase their typing speed or WPM (words per minute). Students practice proper posture, finger positioning, and typing strategies, and they explore safe Internet practices.

Grades: 03 04 05 | Non-Essential | First or Second Semester | Platform: Lincoln

In this online course, students will learn the foundations of survival basics from identifying and preparing edible plants, to starting a fire, tying knots, basic first-aid, and rappelling. They will also learn to use a map and compass, track animals, and more! We'll learn about how some of these techniques started and developed over time. Opportunities will be provided to hear from experts in the field on how to safely survive outdoors. We will provide a thorough introduction to wilderness survival, while keeping in mind the age of our students through engaging online lessons, assignments, quizzes, and activities.

Grades: 01 02 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Wilderness Survival and Adventuring 1-5: Level 2 - GL | ★ | ♥

This online course will continue to explore deeper into topics of wilderness survival at an elementary level. Students will expand on basic skills, such as identifying edible plants, starting a fire, tying basic knots, and applying basic first aid. Activities include map reading, animal tracking, and understanding the history behind survival techniques. This level is designed to further develop basic skills in outdoor survival for young learners, emphasizing fun, interactive activities and quizzes.

Grades: 01 02 03 04 05 | Non-Essential | Full Year | Platform: GLVP

♦ Career Readiness **♦**

Life Skills: Friendship Builders 3-5 - GL 💢 🛛 🏵

This course for upper elementary students focuses on empowering students with essential life skills. Engaging discussions, team projects, and real-life scenarios help children develop emotional intelligence, conflict resolution strategies, and decision-making abilities. By fostering a growth mindset, students learn to manage emotions, navigate social challenges, and strengthen peer relationships. Through collaborative activities, this online course instills a sense of community, enabling students to discover their leadership potential while enhancing their sense of belonging.

Grades: 03 04 05 | Non-Essential | First or Second Semester | Platform: GLVP

♦ English Language Arts **♦**

■ NEW Beginning Nature Journaling 2-5 - GL | ★ | ♥

Do you like to draw or write but don't feel that you are good at it? Are you willing to draw or write though it's not something you do for fun? Do you like to explore nature and nature topics? Through informal sketching, drawing, painting and writing, students will explore nature observation through journaling both indoors and outdoors. No artistic ability required, just a willingness and motivation to try! This course offers videos, short online quizzes and many opportunities for students to sharpen their curiosity, observation skills, and confidence in "hand to paper" expression of what their senses experience.

Grades: 02 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Essentials in Writing 1 - EW |

Essentials in Writing Grade 1 is a video-based writing course designed to empower young writers and supplement any core English Language Arts program. Students watch online video lessons that are presented in a systematic, step-by-step approach and then proceed to writing assignments. The writing lessons and assignments are presented in small "chunks" to help students understand, apply, and retain concepts. After a new or reviewed concept has been taught, the video teacher "shows" students HOW to apply the new concept in writing. Students submit writing assignments to a Gull Lake certified teacher who will provide feedback and be available to meet in person. Both grammar and composition lessons are taught. This course includes a printed textbook/workbook that will help support student learning.

Grades: 01 | Non-Essential | Full Year | Platform: Essentials In Writing

Essentials in Writing 2 - EW |

Essentials in Writing Grade 2 is a video-based writing course designed to empower young writers and supplement any core English Language Arts program.. Students watch online video lessons that are presented in a systematic, step-by-step approach and then proceed to writing assignments. The writing lessons and assignments are presented in small "chunks" to help students understand, apply, and retain concepts. After a new or reviewed concept has been taught, the video teacher "shows" students HOW to apply the new concept in writing. Students submit writing assignments to a Gull Lake certified teacher who will provide feedback and be available to meet in person. Both grammar and composition lessons are taught. This course includes a printed textbook/workbook that will help support student learning.

Grades: 02 | Non-Essential | Full Year | Platform: Essentials In Writing

Essentials in Writing 3 - EW |

Essentials in Writing Grade 3 is a video-based writing course designed to empower young writers and supplement any core English Language Arts program. Students watch online video lessons that are presented in a systematic, step-by-step approach and then proceed to writing assignments. The writing lessons and assignments are presented in small "chunks" to help students understand, apply, and retain concepts. After a new or reviewed concept has been taught, the video teacher "shows" students HOW to apply the new concept in writing. Students submit writing assignments to a Gull Lake certified teacher who will provide feedback and be available to meet in person. Both grammar and composition lessons are taught. This course includes a printed textbook/workbook that will help support student learning.

Grades: 03 | Non-Essential | Full Year | Platform: Essentials In Writing

Essentials in Writing 4 - EW |

Essentials in Writing Grade 4 is a video-based writing course designed to empower young writers and supplement any core English Language Arts program. Students watch online video lessons that are presented in a systematic, step-by-step approach and then proceed to writing assignments. The writing lessons and assignments are presented in small "chunks" to help students understand, apply, and retain concepts. After a new or reviewed concept has been taught, the video teacher "shows" students HOW to apply the new concept in writing. Students submit writing assignments to a Gull Lake certified teacher who will provide feedback and be available to meet in person. Both grammar and composition lessons are taught. This course includes a printed textbook/workbook that will help support student learning.

Grades: 04 | Non-Essential | Full Year | Platform: Essentials In Writing

Essentials in Writing 5 - EW |

Essentials in Writing Grade 5 is a video-based writing course designed to empower young writers and supplement any core English Language Arts program. Students watch online video lessons that are presented in a systematic, step-by-step approach and then proceed to writing assignments. The writing lessons and assignments are presented in small "chunks" to help students understand, apply, and retain concepts. After a new or reviewed concept has been taught, the video teacher "shows" students HOW to apply the new concept in writing. Sact Finders: Masters of Memory K-5 - GL | ♥

Transform learning into an unforgettable adventure with Fact Finders: Masters of Memory, a self-paced online course focused on making memorization fun and effective! Students will explore fascinating topics like amazing animals, world wonders, and key historical moments while mastering creative techniques to remember what they learn. Through dynamic activities and engaging content, students will: - Learn powerful memory techniques like songs, rhymes, visualization, and storytelling. - Practice skills with activities such as matching games, movement-based challenges, and creative crafts. - Reinforce learning through interactive quizzes and puzzles designed to solidify knowledge. - Apply what they've learned with hands-on projects and opportunities to share favorite memory tricks. This course puts memorization at the heart of the learning experience, helping young explorers gain confidence in recalling facts in enjoyable and innovative ways.

Grades: K 01 02 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Playful Explorers: Foundations of Fun K-2 - GL |

In this engaging online course, young learners will focus on foundational skills while exploring their creativity and social connections at home. The course includes interactive activities designed to build confidence and curiosity, such as: Learning to read the calendar Practicing letters and numbers through games and challenges Completing creative "show-and-tell" projects to share with family or peers Participating in guided music and movement activities; and playing interactive games that promote critical thinking and problem-solving Each week, students will access multimedia lessons, printable resources, and step-by-step activity guides to support their learning journey. While this course stands alone, it pairs perfectly with Playful Explorers: Themed Adventures to extend learning and dive deeper into exciting topics like animals, space, and gardens.

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

Playful Explorers: Themed Adventures K-2 - GL |

Take your young learner on a journey of discovery! This online course delves into exciting weekly themes like animals, space, friendship, and gardens. Each lesson is designed to spark curiosity and creativity through engaging activities, including: Hands-on projects with step-by-step instructions Themed songs and sing-alongs, Interactive read-alouds with follow-up discussion prompts, Creative games and activities to deepen understanding Students will have access to multimedia lessons, downloadable materials, and engaging activities that bring each topic to life. This course encourages critical thinking, collaboration with family or peers, and a deeper appreciation of the world around them. While this course stands alone, it pairs perfectly with Playful Explorers: Foundations of Fun for a comprehensive learning experience.

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

The Sounds and Shapes of Letters and Words K - GL | 🖈 | 💂

This kindergarten course offers a weekly focus on an Upper and Lower Case letter, its sounds, and how to draw/write it. Along with a weekly 4 to 5 minute video of quick-paced tracing, saying, and writing the letter, this class includes a weekly song about how the letter is made. As the weeks progress, blends, digraphs, and even sight words will be added!

♦ Fine & Performing Arts - Dance **♦**

Dance Discovery 3-5: Artistry - GL |

Unleash your creativity in this innovative online course that merges traditional dance with cutting-edge technology! Students will not only learn various cultural dances but also explore how technology is shaping the future of dance through multimedia performances and digital choreography. This course will encourage students to create their own unique dances while incorporating modern tech tools. Join us and discover how to dance like no one's watching while utilizing the latest advancements in the art form!

Grades: 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Dance Discovery K-2: Storytelling - GL |

Get ready to move and groove in this dynamic exploration of dance course! In this online course, students will not only learn about unique dances from around the world but also understand the significance of dance in different cultures. We'll incorporate fun children's games and discover how technology is shaping the future of dance. Join us for a joyful experience that celebrates creativity, teamwork, and global traditions!

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

Dance Essentials 3-5: Level 1 - GL

Are you ready to dance? In this level 1 course, elementary students will embark on a fun-filled journey through the world of dance fundamentals. They will learn different dance styles, practice essential techniques, and further their dance vocabulary knowledge. This online course not only promotes physical fitness but also encourages teamwork and self-expression, making it a perfect fit for young movers and shakers!

Grades: 03 04 05 | Non-Essential | Full Year | Platform: GLVP

□ NEW Dance Fundamentals K-2: Level 1 - GL | ��

Get ready to wiggle, jump, and twirl in this online essential dance course! In this level 1 course, young dancers will learn basic dance positions, fun combinations, and how to express their feelings through movement all while gaining the basic elements of dance. Students will enjoy developing essential coordination and strength while making new friends. Join us for a delightful adventure where every step is a chance to shine!

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

Dance: Technique, Poise, and Etiquette 3-5: Level 1 - GL |

Dance is an expressive art form that allows us to communicate emotions and tell stories through movement. The technique behind the dance helps us control our movements, maintain balance, and develop rhythm, which are a great benefit when performing various styles, such as ballet, and jazz. Through this level 1 online course students will learn, understand and apply proper technique making for a more graceful and confident dancer. Progressing through the foundational elements of dance, students will not only become more skilled dancers but will also develop valuable life skills, such as resilience, and self-expression.

Grades: 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Dance: Technique, Poise, and Etiquette K-2: Level 1 - GL | 🛇

This level 1 course offers young dancers the opportunity to discover the joy of movement while mastering essential dance skills. Through engaging exercises, children will develop control, focus, and awareness of their bodies. This online course not only encourages graceful dancing but also builds confidence and self-expression. Students will learn to respect their teachers and classmates, fostering a friendly atmosphere where everyone can shine!

Music Progressions 3 - GL | ♥

Welcome to Music Progressions 3! In this online course, your elementary musician will progress to an early intermediate level. They will grow in their musicianship and begin their journey as an independent musician. They will personalize their continued study of music by focusing on a specific instrument or voice. The student, in concert with their teacher, will craft a personalized learning plan that expands their theoretical and practical music knowledge. Virtual assignments include exciting listening reflections, general music knowledge for their instrument or voice, recording assignments, and activities enhancing independent musical abilities such as musical staff review, beginning music theory, rhythm and melody exercises, expression, and some simple music history. Virtual assignments may also include elaboration on the instruments of the band, orchestra, and voice types.

Grades: 03 | Non-Essential | Full Year | Platform: GLVP

Music Progressions 4-5 - GL |

In this online course the elementary musician will continue their personalized study of music by focusing on a specific instrument or voice at an intermediate level. The young musician, in concert with their teacher, will progress through their learning plan to increase their fluency in theoretical and practical music knowledge. Online assignments include exciting listening reflections, general music knowledge for their instrument or voice, and activities enhancing independent musical abilities such as musical staff review and sight-reading, intervals and ear training, more complex rhythm and melody exercises, expression, and expanded music history. Online assignments may also include a deeper look into instruments of the band, orchestra, and voice types.

Grades: 04 05 | Non-Essential | Full Year | Platform: GLVP

♦ Fine & Performing Arts - Theater **♦**

Theatre Arts 3-5: Level 1 - GL | 🖈 | 🛛

This entry-level online course introduces upper elementary students to the basics of acting and drama, including role play, imagination, and emotional learning. Students will explore how music and dance enhance storytelling, while developing skills to use their voices and physical space to communicate effectively. Activities include acting out simple scenes with puppets, reciting a poem from memory (via video), and experiencing key moments from modern American theatre. No prerequisites are required.

Grades: 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Theatre Arts 3-5: Level 2 - GL

For second year Theatre Arts students, grades 4-5, this online course builds on the basics of acting with a focus on more refined stage techniques, such as vocal expression, physical movement, and character development. Students will enhance their storytelling abilities by exploring how these elements deepen the message of a performance. Activities include acting out more complex scenes, reciting expressive poems (via video), and analyzing famous scenes from modern American theatre to uncover themes and meaning.

Grades: 04 05 | Non-Essential | Full Year | Platform: GLVP

Theatre Arts 3-5: Level 3 - GL |

For third year Theatre Arts students, this dynamic online course deepens acting skills by focusing on emotional expression, stage presence, and creative storytelling. Students will refine their use of voice and physicality to communicate characters and themes, while exploring how these elements enhance performance. Activities include creating original scenes with puppets, delivering expressive video recitations of poetry, and conducting in-depth analyses of iconic scenes from modern American theatre.

Grades: 05 | Non-Essential | Full Year | Platform: GLVP

Theatre Arts K-2: Level 1 - GL | ★ | ♥

This entry-level online course introduces the basics of acting and creative role play. Students will spark their imaginations as they explore characters, emotions, and simple storytelling through fun, hands-on activities. They will explore the world of theater by retelling stories, acting out scenes with puppets, and reciting short poems. Students will also get a glimpse into the excitement of modern theatre. No prerequisites are required—just bring your creativity! No prerequisites are required—just bring your creativity!

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

S NEW Theatre Arts K-2: Level 2 - GL | ♥

This second-year Theatre Arts grades 1-2 online course expands on basic acting techniques like voice control, expression, and movement. Students will develop their creativity through imaginative role play, emotional learning activities, and storytelling. They'll practice using music, dance, and physical space to enhance performances, act out short scenes with puppets, and recite poems with greater confidence.

Grades: 01 02 | Non-Essential | Full Year | Platform: GLVP

☐ NEW Theatre Arts K-2: Level 3 - GL | ♥

For third year Theatre Arts K-2 students, this intermediate online course deepens students' acting skills, focusing on vocal expression, character development, and collaborative performance techniques. Students will explore how music, movement, and staging bring stories to life. They'll participate in longer scenes, create original characters, and recite poems with strong emotional delivery.

Grades: 02 | Non-Essential | Full Year | Platform: GLVP

♦ Literature **♦**

Folktale Fun K-2 - GL 🖈 🖳

In this virtual course, we will explore classic stories such as The Tortoise and the Hare, Goldilocks and the Three Bears, and Paul Bunyan. When available, we will also explore different variations of the stories that we cover. We will be exploring the setting, characters, and morals/lessons of the stories. The goal for this course is to have exposure to classic literature and enjoy it together!

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

Jr. Kidlit K-2 - GL |

Let's explore all kinds of topics of interest to early elementary students, with a good grounding in multiple subjects! We will utilize material from the Five in a Row series for the course, and apply this model with other books. This involves reading a well-written children's picture book aloud for 2 weeks in a row of class, and intentionally expanding on different subject areas that come up naturally in the story.

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

♦ Physical Education & Health **♦**

Fencing 2-5 - GL |

Introduction to Fencing. This course will cover the use of the three swords still used in modern Olympic fencing, the history and evolution of fencing throughout the ages, as well as that of the equipment used. In addition to learning how to fence, students will also learn the rules of decorum that are to be recognized during a duel or bout, both historically and in modern competition. This virtual course delivers engaging assignments, fun activities, and quizzes.

Grades: 02 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Muscles and Movement: 1 - GL |

This online course will teach students about how our bodies work and why staying healthy is so important. Students will focus on motor skills and body awareness. With fun fitness challenges and activities students will improve coordination and control of basic movement patterns and develop coordination, balance, and confidence in motor skills.

Grades: 01 | Non-Essential | Full Year | Platform: GLVP

Muscles and Movement: 2 - GL |

In this online course students will link movement to muscles and improving strength. Students will understand how muscles help the body move and will continue to show strength and endurance in physical activities. Students will continue to develop balance, resistance exercises, and learn about major muscle groups. This course provides interactive lessons and fun activities, assignments, and quizzes.

Grades: 02 | Non-Essential | Full Year | Platform: GLVP

Muscles and Movement: 3 - GL |

In this online course, students will build upon their knowledge on more complex movement skills. Students will continue to improve on coordination, teamwork, movement challenges, and introducing dynamic stretching. Lessons will allow students to demonstrate coordination and agility and identify key muscles used during specific exercises. This online course delivers content through engaging assignments, quizzes and projects.

Grades: 03 | Non-Essential | Full Year | Platform: GLVP

Muscles and Movement: 4 - GL |

In this online course, students will dive into how their body works and why health and wellness are so important for feeling their best. Students will explore topics like anatomy (the parts of your body) and how staying active and making healthy choices can boost your energy. Goals will include showing strength and endurance in physical challenges and understanding how muscles work together to perform complex movements. Activities will include circuit training, sport-specific movements, and importance of rest and recovery. Interactive lessons, assignments and quizzes will promote the fun in learning.

Grades: 04 | Non-Essential | Full Year | Platform: GLVP

Muscles and Movement: 5 - GL |

This online course is designed to teach how the body functions and why staying healthy is essential for feeling strong and energized. The course covers topics like anatomy, physiology, and how making healthy choices can improve your life. Applying muscle knowledge to lifelong fitness practices will help connect fitness, muscle health, and overall wellness. Students will demonstrate leadership, teamwork and independent fitness planning. Students will engage in fitness assessments and setting personal goals. Engaging activities, lessons, and quizzes will encourage students to have fun in this course.

Grades: 05 | Non-Essential | Full Year | Platform: GLVP

Sales Muscles and Movement: K - GL | ★ | ♥

In this online course, you'll learn how your body works and why it's important to stay healthy and move around. The course has fun lessons, simple activities, and exciting games to help you feel happy and strong! This engaging and dynamic course has games, exercises, and helps develop basic motor skills. This course helps connect movement with health. Students will have fun with interactive lessons, assignments, and quizzes to learn about muscles and movement.

Grades: K | Non-Essential | Full Year | Platform: GLVP

Personal Wellness: 1 - GL |

This online course will introduce how to take care of your body by eating healthy foods, staying active, and feeling good. Students will explore simple ideas like choosing healthy snacks, moving your body, safety habits, and recognizing feelings. Students will practice healthy routines and learn safe behaviors to self-regulate their emotions. Activities, lessons, and quizzes will promote learning of personal wellness.

Grades: 01 | Non-Essential | Full Year | Platform: GLVP

Personal Wellness: 2 - GL |

In this online course, students will learn how to take care of your body by eating healthy foods, staying active, and feeling your best. Students will discover easy ways to make healthy choices, like eating good snacks, exercising, and relaxing when needed. Students will explore understanding how the body and mind work together for wellness and how to manage stress. Physical activity and building balanced meals will be introduced as a guide to personal wellness and will be taught in engaging lessons, assignments, and quizzes in this course.

Grades: 02 | Non-Essential | Full Year | Platform: GLVP

NEW Personal Wellness: 3 - GL |

In this online course, students will learn about how staying healthy, eating the right food, and being active can help you feel your best. Students will connect healthy habits to short and long term wellness. Students will learn about exercise, nutrition, practicing kindness, and building positive relationships. Strategies like journalizing, fun physical challenges, and building friendships are explored further. This course delivers engaging assignments, interesting videos, and quizzes.

Grades: 03 | Non-Essential | Full Year | Platform: GLVP

Personal Wellness: 4 - GL |

In this online course, students will learn about how staying healthy, eating the right food, and being active can help you feel their best. Students will become better informed on choices for health and relationships. Activities include reading food labels and understanding portion sizes, benefits of consistent exercise for muscles, bones and brain, and managing peer pressure and conflict resolution. Fun activities, lessons, and quizzes will engage students to learn more about their personal wellness.

Grades: 04 | Non-Essential | Full Year | Platform: GLVP

NEW Personal Wellness: 5 - GL |

In this online course, students will build independence in their health and wellness. Topics include goal setting for fitness and nutrition, creating balanced lifestyle of activity, rest, and fun, and building self-confidence for maintaining positive relationships. This course allows students to demonstrate their knowledge in their personal wellness choices and understanding of physical, mental, and emotional health. This course delivers engaging assignments, interesting videos, and quizzes.

Grades: 05 | Non-Essential | Full Year | Platform: GLVP

Personal Wellness: K - GL |

This online course will teach you how to take care of your body by eating healthy foods and self-care. Students will be introduced to healthy habits and the importance of movement in play. The course will also introduce emotions and social awareness and how to share them appropriately. Exploring feelings and building confidence is important for young minds. Fun activities, lessons, assignments, and quizzes will be a fun way to explore personal wellness.

Grades: K | Non-Essential | Full Year | Platform: GLVP

Sports and Fitness: 1 - GL | •

This online course introduces students to the basics of physical fitness while exploring a variety of recreational activities, individual sports, and team games. Students will start their journey into expanding movement skills and introducing basic sport concepts like throwing, catching, kicking, and striking a ball. Playing simple team and recreational games will promote cooperation with others as well.

Grades: 01 | Non-Essential | Full Year | Platform: GLVP

Sports and Fitness: 2 - GL |

This online course introduces students to fundamental concepts of physical fitness while exploring a variety of recreational activities, individual sports, and team games. Students will develop sports skills, understanding warm-up and cool-down exercise, and practicing teamwork and positive communication.

Grades: 02 | Non-Essential | Full Year | Platform: GLVP

NEW Sports and Fitness: 3 - GL | •

In this online course students learn how to apply sports skills in game situations and develop fitness. Students will learn more about the basic rules, history, and fun facts of various sports. Introduction to fitness components like strength, endurance, and flexibility and how they benefit for each activity. Students will also build on teamwork and leadership skills and how they are important in sports.

Grades: 03 | Non-Essential | Full Year | Platform: GLVP

Sports and Fitness: 4 - GL | 🌣

In this online course, students will learn to enhance their sports proficiency and understand fitness principles. Students will understand the importance of goal-setting in fitness and learn how practice in fair play and conflict resolution works in sports. Students will explore the benefits of being active, plus dive into the rules, history, and interesting facts about various recreational sports.

Grades: 04 | Non-Essential | Full Year | Platform: GLVP

Sports and Fitness: 5 - GL |

In this online course students will apply more advanced skills and strategies in personal fitness planning. Students will take a more in-depth understanding of team sports and personal fitness activities. Fitness challenges, learning game rules and strategies, and demonstrating warm-ups are all a part of this fun and engaging course. Additional lessons in leadership in sports and building goals are essential for the life-long learner.

Grades: 05 | Non-Essential | Full Year | Platform: GLVP

Sports and Fitness: K - GL |

This online course introduces young learners to the fundamentals of physical fitness while exploring a variety of recreational activities, individual sports, and team games. This course will focus on fundamental movements that assist in cooperative play and basic locomotor skills. Students will also be introduced to simple rules and routines of games and introducing them to teamwork and taking turns. This online course delivers age-appropriate content through engaging lessons, videos, and quizzes.

Grades: K | Non-Essential | Full Year | Platform: GLVP

♦ Science **♦**

Farm Fun 3-5 - GL| ★ | �

In this virtual course, we will learn about the basics of farming as it relates to crops, machinery, and livestock! We will explore different types of crops (corn, wheat, soybeans, hay, etc.) and about how machinery (and even animals) can be used to plant and harvest those crops. We will also explore the many options for livestock--cattle, pigs, horses, and sheep to name a few. Students will learn about life cycles of animals and plants, including proper terminology.

Grades: 03 04 05 | Non-Essential | Full Year | Platform: GLVP

This course has a three-year cycle. Each course can be taken independently depending on the student's interests. This virtual course delivers content through engaging assignments, quizzes and fun activities. This course is perfect for young learners

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

Crafts and Cooking from Cultures Around the World 3-5 - GL |

Visit the seven continents with engaging craft and cooking activities! As we visit different countries, we will experience art, foods, celebrations and traditions of that culture using books, websites, crafts, and cooking! This online course is designed to expand the appreciation of world cultures, while practicing crafts, cooking, map reading. This online course provides an engaging learning journey filled with interactive assignments, quizzes, and activities.

Grades: 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Crafts and Cooking from Cultures Around the World K-2 - GL |

Welcome to a fun and exciting year of exploring the world! In this course, you will go on a journey to learn about different cultures from all seven continents. Learn about different art styles and make on your own, discover different foods by learning simple recipes, and learn about celebrations and traditions from cultures around the world! This course is perfect for young learners. This virtual course delivers content through engaging assignments, quizzes and fun activities.

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

Exploring the Fifty States K-5 - GL | 🛡

This class will explore all the oddities and variety of the states that make up our great nation. Each week students will explore one or two states and delve into many aspects of the history, culture, people, and land. We will create a lap book/notebook to document their travels, and work on learning all the states and capitals by heart.

Grades: K 01 02 03 04 05 | Non-Essential | Full Year | Platform: GLVP

Native American Oral Traditions K-5 - GL | ©

Before there was the internet, or television, or even books; Native American children listened to stories around the fire as told by their elders. They learned about the history of their ancestors through these fireside stories about people, land, plants and animals. Storytelling, drumming and singing were all different ways to learn and connect with one another. Have you ever sat around a campfire and listened to stories? In this course you will discover different ways to learn in the Native American way!

Grades: K 01 02 03 04 05 | Non-Essential | Full Year | Platform: GLVP

♦ World Language **♦**

American Sign Language 3-5: 1 Entry Level - GL | 🛇

Students taking the 3-5 ASL 1 course sequence will attain beginner ASL proficiency. Areas covered in Entry level include the alphabet, numbers, simple finger-spelling, personal pronouns, introductions, and fun common vocabulary. Emphasis will be placed on understanding, with some signing. This online course provides ASL learning through engaging assignments, quizzes and fun activities.

Grades: 03 04 05 | Non-Essential | Full Year | Platform: GLVP

American Sign Language 3-5: 1 Mid Level - GL | •

Students taking the 3-5 ASL 1 course sequence will attain beginner ASL proficiency. Areas covered in Mid level include larger numbers, more complex finger-spelling, fun common vocabulary, and common verbs. We'll begin to sign more, and construct simple sentences. This online course provides ASL learning through engaging assignments, quizzes and fun activities.

Grades: 03 04 05 | Non-Essential | Full Year | Platform: GLVP

American Sign Language 3-5: 1 Proficient Level - GL | 🛇

Students taking the 3-5 ASL 1 course sequence will attain beginner ASL proficiency. Areas covered in Proficient level include larger numbers, more complex fingerspelling, fun common vocabulary, common verbs, and multiple sentence interactions. This online course provides ASL learning through engaging assignments, quizzes and fun activities.

Grades: 04 05 | Non-Essential | Full Year | Platform: GLVP

American Sign Language K-2: 1 Entry Level - GL |

Students taking K-2 ASL 1 course sequence will attain beginner ASL proficiency. Areas covered in Entry level include the alphabet, numbers, simple finger-spelling, personal pronouns, introductions, and fun common vocabulary. Emphasis is on understanding, with some signing. This online course provides ASL learning through engaging assignments, quizzes and fun activities.

Grades: K 01 02 | Non-Essential | Full Year | Platform: GLVP

△NEW American Sign Language K-2: 1 Mid Level - GL | ♥

Students taking the K-2 ASL 1 course sequence will attain beginner ASL proficiency. Areas covered in Mid level include larger numbers, more complex fingerspelling, fun common vocabulary, and common verbs. We'll begin to sign more, and construct simple sentences. Middle School

Essential Virtual Course Descriptions

♦ English Language Arts **♦**

English Language Arts 6A - LI | 💂

English Language Arts 6 introduces and builds the fundamental skills of English language arts, including reading, writing, speaking, listening, and using language. This course helps transition students from an elementary setting to the middle school learning environment. Students explore a variety of texts from a range of time periods, literary genres, and writers. From classic authors to contemporary creative writers, students study the use of language and literary devices to improve reading comprehension and to apply to their own skill sets. In addition to reading, students strengthen their writing skills through several modes of composition, such as entertainment, persuasive, poetic, and expository texts. They learn how to construct a well-written five-paragraph essay. Notably, students learn to conduct research, cite sources in MLA formatting, and compose a formal research essay. The final topic of the course provides the opportunity for students to either read a novel or examine a variety of excerpts from novels. This topic encompasses the fundamental skill sets built throughout the year. Students complete creative projects such as creating an original piece of folklore and writing an original poem. These projects encourage students to highlight their talents and skills. This course emphasizes the importance of independent and creative thinking and integrates social-emotional learning.

Grades: 06 | Essential | First Semester | Platform: Lincoln

English Language Arts 6B - LI |

Grades: 06 | Essential | Second Semester | Platform: Lincoln

English Language Arts 7A - LI |

English Language Arts 7 introduces students to reading a wide array of literature and informational texts. In addition, students explore the elements of literature, focusing on plot, setting, and characters. By studying language and engaging in different writing assignments, students begin to explore different ways to state their opinions, to make claims, and to verbalize in an effective manner.

Grades: 07 | Essential | First Semester | Platform: Lincoln

English Language Arts 7B - LI

English Language Arts 7 introduces students to reading a wide array of literature and informational texts. In addition, students explore the elements of literature, focusing on plot, setting, and characters. By studying language and engaging in different writing assignments, students begin to explore different ways to state their opinions, to make claims, and to verbalize in an effective manner.

Grades: 07 | Essential | Second Semester | Platform: Lincoln

English Language Arts 8A - LI |

English Language Arts 8 introduces students to literature and informational texts. Through lessons on the literary elements, the structure of texts, and the basics of grammar and composition, students apply analytical thinking skills to the works that they read. Students also delve into poetry in this course by dissecting the structure of poems, the language, and the terminology that is often affiliated with the genre. Students also apply their listening and speaking skills through presentations and projects.

Grades: 08 | Essential | First Semester | Platform: Lincoln

Grades: 08 | Essential | Second Semester | Platform: Lincoln

♦ Math **♦**

Mathematics 6A - LI |

Mathematics 6 introduces students to rational numbers and explores the concept of absolute value. Students work with ratios and rates to analyze relationships, and they connect these concepts to percents. Students also apply all four operations to decimal numbers, using the concepts to solve real-world application problems. In this course, students begin their study of Algebra by learning about mathematical expressions, equations, and inequalities. They analyze data and display data using statistical methods. Students also explore two- and three-dimensional shapes.

Grades: 06 | Essential | First or Second Semester | Platform: Lincoln

Grades: 06 | Essential | First or Second Semester | Platform: Lincoln

Mathematics 7A - LI |

Students in Mathematics 7 begin their journey on the pathway to developing a strong mathematics framework. Students hone their arithmetic skills in this course, preparing them for more difficult and detailed calculations. Students work through fractions and decimals and begin developing algebraic skills by learning to work with and solve two-step equations. Students also explore probabilities, data, and statistics.

Grades: 07 | Essential | First or Second Semester | Platform: Lincoln

Grades: 07 | Essential | First or Second Semester | Platform: Lincoln

Mathematics 8A - LI |

Mathematics 8 prepares students for more difficult mathematics courses by exposing students to foundational arithmetic concepts. Students in this course examine the elements of geometry by being introduced to angles, lines, and points. Students apply this knowledge to graphs using coordinate planes and by completing calculations between two points' distances. Students also study the scientific notation, which assists them in computations and provides a framework for more difficult calculations.

Grades: 08 | Essential | First or Second Semester | Platform: Lincoln

♦ Science **♦**

Science 6A - LI |

Science 6 takes students on a journey that incorporates life science, Earth and space science, and physical science concepts. Students begin by studying topics related to the nature of science and engineering, and they gain the skills necessary to succeed in investigations and engineering labs within the course. They learn how matter and energy interact and aid in creating the world around them. Students discover the unique properties of Earth that make it a sustainable planet for living organisms. Students will take an in-depth look at cells and their specialized structures, a variety of habitable ecosystems, and the abilities plants and animals have to adapt to various surroundings. Along with learning about the life on Earth, students will study the atmosphere and weather that has made Earth habitable for humans. They investigate ways to be more environmentally conscious by exploring how populations are affected by various environmental factors. Students work toward discovering solutions to these problems. This course includes multiple-day projects and hands-on labs, which are driven by real-world phenomena and meaningful story lines.

Science 7A - LI |

Science 7 integrates life science, Earth and space science, and physical science, while incorporating both engineering and scientific methods. In this course, students explore the ways in which humans have an impact on Earth's ecosystems and resources. They study the different forces at work on Earth and throughout the universe, learning about their importance in technologies and everyday phenomena. Students also investigate evidence of past life on Earth and how it evolved into the life that exists today. This course allows students to dig deeper into the inheritance of organisms and how these organisms adapt to their environments. Finally, students are introduced to waves, exploring how both sound and light waves are used in communication. This course includes multiple-day engineering design projects and hands-on labs, which are driven by real-world phenomena and meaningful story lines.

Science 8A - LI |

Science 8 combines the subjects of life science, Earth and space science, and physical science, while incorporating both engineering and scientific methods. Students further their knowledge of the interactions of matter, learning about the properties of the periodic table and how reactions occur. Next, students learn about reproduction in cells and inheritance. In this part of the course, students analyze the difference between types of reproduction in cells, leading them to determine how traits and genetic differences in DNA occur. Students travel back in time and determine how clues from life in the past help to explain, map, and classify existing life on Earth. Students also explore ecosystems and how precious they are to life on Earth, analyzing how even the smallest impacts can have large effects on populations. Finally, students investigate wave technologies and how those technologies are used on Earth for advancements in science and economic growth.

♦ Social Studies ♦

Ancient History 7A - LI |

Ancient History enables students to explore the cultures of ancient civilizations throughout the world. They discover each civilization's contributions to art, music, literature, education, religion, science, technology, government, and philosophy. Students explore aspects of humanity from prehistoric to about 500 CE.

Grades: 07 | Essential | First Semester | Platform: Lincoln

Grades: 07 | Essential | Second Semester | Platform: Lincoln

Geography MS 6A - LI |

Students learn to study the Earth's landscape in Middle School Geography. In this course, students learn that geography extends beyond physical structures by exploring geographical facets such as regions, ethnicities, and trade routes, in addition to landforms. By studying the geography, history, culture, religion, and contemporary issues facing a certain group of people or a specific area of space, students discover a significant amount of information about people in the present and in the past.

Grades: 06 | Essential | First Semester | Platform: Lincoln

Grades: 06 | Essential | Second Semester | Platform: Lincoln

U.S. History MS 8A - LI |

Middle School U.S. History explores the history of the United States from before the arrival of Europeans in North America to the events of the 2016 presidential election. Students begin the course by examining North America before the arrival of European explorers and the establishment of colonies. Students learn about life in the colonies, British rule, and the events that led to the Revolutionary War. After learning about the American Revolution, students explore early U.S. government, westward expansion, the influence of the Industrial Revolution, and the Civil War. Then, they study life after the Civil War, Progressivism, Imperialism, and the onset of World War I. Next, students analyze the Roaring Twenties, the Great Depression, and World War II. Finally, students examine the Civil Rights movement, the Cold War, life in the 1960s and 1970s, and modern-day policies and events.

Grades: 08 | Essential | First Semester | Platform: Lincoln

Middle School

Non-Essential Virtual Course Descriptions

New Advanced Bushcraft MS: Level 1 - GL | ★ | ♥

This online course helps students learn how to live and thrive in the wilderness for extended periods of time. Taking over from where Wilderness Survival and Adventuring leaves off, this advanced course teaches advanced skills like building a base camp using simple tools and making survival gear from natural materials. Going beyond immediate needs to long-term needs, students will learn how to create long-lasting shelters with heating, cooking, and lighting, as well as furniture from things found in nature. The course also covers how to make items like food storage containers, and tools, focusing on self-sufficiency and creativity. By the end of the course, students will know how to live independently and sustainably in the wild for a length of time. This online course delivers engaging lessons, activities, quizzes, assignments and resources to help students practice these skills.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

Advanced Bushcraft MS: Level 2 - GL | |

This online course helps students become experts at living in the wilderness for a significantly extended amount of time. It is designed for those who want to be true survivalists and learn how to thrive in any environment. Students will practice building advanced shelters, base camps, and systems that include heating, cooking, and lighting, creating comfortable outdoor living spaces. They will also learn advanced skills like preserving food, managing resources, and making tools from natural materials. The course teaches students how to hunt, fish, forage, and store food for the future. By the end of this course, students will have the knowledge and skills to live in the wild for months or even years, using what nature provides. The online course delivers lessons, activities, projects and resources to help students practice and explore these skills.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

AI Explorers MS - GL |

AI Explorers is an introductory course that brings the world of Artificial Intelligence to life for students. Through hands-on activities, engaging lessons, and age-appropriate projects, students will learn how AI works, where it is used, and it's potential to shape the future. Students will explore basic AI concepts, see how machines learn, and examine the ethical implications of AI in our lives.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: GLVP

Back to Basics MS: Homesteading - GL | |

Are you ready to roll up your sleeves and discover the art of self-sufficiency? In this online course, students will learn essential homesteading skills such as gardening, basic animal care, food gathering techniques, and crafting with natural materials. We will explore how to grow our own food, raise animals, and create useful items from everyday resources. Students will gain a deeper appreciation for where food comes from and for the skills that have sustained families for generations. Join us for an adventure that connects you to nature and empowers you to take charge of your own food sources! This online course delivers engaging assignments, quizzes and fun activities.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

Being a Successful Online Learner MS - GL |

This course will cover a broad range of topics for online learning success: keyboard skills, digital citizenship, using a Chromebook and Google Apps, study skills, time management for an asynchronous schedule, effective online communication, understanding their digital footprint, presentation tools, and more. Students will be able to demonstrate an understanding of what virtual learning encompasses and the skills needed to succeed, both personal and professional, with a focus on success within their GLVP courses. Proficiency in using platforms and accessing courses; demonstration of independent learning skills for studying, creating planners, and using Google Apps; and knowledge of students' own digital footprint and digital citizenship will be developed throughout the course.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: GLVP

Coding 1A: Introduction MS - ED| ★ | 💂

Do you find yourself wondering how your favorite apps, websites, and games were made? Maybe you want to try building your own. Well, now you can! In Middle School Coding 1a, you will get an introduction to the basics of computer science, HTML, CSS, JavaScript, and Python. You'll leave the course with a portfolio of work you can show off.

Grades: 06 07 08 | Non-Essential | First Semester | Platform: eDynamic

Coding 1B: Learning Python and Javascript MS - ED| ★ | 💂

Let's take the coding skills you learned in the previous course to the next level! You'll expand your knowledge with Advanced Python, HTML, and JavaScript. You'll further build out your portfolio and start thinking about a career in the fast-growing IT field.

Grades: 06 07 08 | Non-Essential | Second Semester | Platform: eDynamic

Computer Basics MS - GL | ★ | �

This class is designed to make students more comfortable with basic computer functions. Students will learn proper keyboard typing format, organization and file/folder management, email/communication netiquette, and basic use of Google Suites - Docs, Sheets, Forms, Drawings Slides. Students will work with Google for Education to learn how to professionally work with Google for coursework. Students will also learn what it means to be a good digital citizen and explore the topic of Internet safety.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: GLVP

Digital Art and Design MS - ED | 💂

The world is filled with so many different forms of art - including digital art. In this course, you'll explore this special genre of art found in everything from advertising to animation to photography and beyond. Additionally, you'll tap into your creative side to create digital art and make it come alive!

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: eDynamic

INEW Digital Literacy & Professional Student Skills for Middle School Students - GL

This course is designed to equip middle school students with essential digital literacy skills for academic success and future readiness. Through engaging lessons and hands-on activities, students will develop proficiency in keyboarding, learn to create compelling multimedia presentations, and equip themselves with academic tools such as note-taking, study skills, and time management strategies. They will also gain a strong understanding of digital citizenship: ethical online behavior, internet safety, privacy protection, and responsible social media use, with the overarching goal of learning to navigate the digital world with integrity and respect for others.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: GLVP

Engineering Adventures MS - GL |

Engineering Adventures is an interactive online course designed for middle school students to dive into the exciting world of engineering. Students will explore fundamental engineering concepts, engage in creative problem-solving, and develop practical skills through fun and challenging projects. This course aims to inspire the next generation of engineers by combining practical activities with real-world applications.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

Field Experiences: Arts & Tech MS - GL |

This online course for middle school students explores the dynamic art and technology scene of the Great Lakes region. Students will have the option to attend field experiences that showcase the region's creativity and outdoor adventures. They'll learn how technology is shaping the future of art while participating in hands-on activities that spark their own ideas. Throughout the course, students will discover how the Great Lakes region blends art, technology, and culture to inspire innovative creativity.

Foundations of Critical Thinking MS: Building Smarter Solutions - GL |

Foundations of Critical Thinking MS: Building Smarter Solutions course is designed to equip students with essential skills in analytical thinking, logical reasoning, and creative problem-solving, all while having fun! Through a dynamic blend of games and challenges grounded in neuroscience, students will refine their thinking processes and explore evidence-based problem-solving strategies. This online course transforms the development of critical thinking into an adventurous journey, fostering a growth mindset, enhancing decision-making abilities, and preparing students for complex real-world situations.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

Game Design MS 1A: Introduction - ED| ★ | 💂

We love to play video games, but have you ever wanted to build your own? If you are interested in a career in technology but also want a creative outlet, Game Design might be the field for you. Learn how to build a game from the ground up in this interactive and hands-on course that will teach you all the ins and outs of making your own game.

Grades: 06 07 08 | Non-Essential | First Semester | Platform: eDynamic

Game Design MS 1B: Creating a Game - ED| ★ | 💂

It's time to take your Game Design knowledge up a level! You built your game design skills and Scratch techniques in the first part of this course. By the end, you wrote your game design document. Now you are ready to start developing that game! You'll create details and add component pieces in a game while learning to prototype, troubleshoot, and test.

Grades: 06 07 08 | Non-Essential | Second Semester | Platform: eDynamic

Solution Wilderness Survival and Adventuring MS: Level 1 - GL | ★ | ♥

Get ready to explore the basics of outdoor survival! In this online course, students will learn how to identify and prepare edible plants, start a fire, tie useful knots, and give basic first aid. Students will also learn how to use a map and compass, track animals, and more. We'll dive into the history of some of these outdoor survival skills and how they've developed over time. Students will have the opportunity to hear from real experts who will share their tips for staying safe outdoors. This course is designed to introduce students to wilderness survival in a fun and age-appropriate way. This online course delivers engaging lessons, activities, quizzes, assignments and resources.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

☑NEW Wilderness Survival and Adventuring MS: Level 2 - GL | ★ | �

This intermediate online course is designed for students eager to deepen their knowledge of wilderness survival. Students will learn how to identify a variety of edible plants and prepare them for safe consumption. Techniques to build and maintain different types of fires suited for various conditions will be explored. Advanced knot-tying skills for camping, shelter-building, and outdoor problem-solving are presented as well as essential first aid practices for treating injuries in outdoor settings. Learners will delve into navigation and animal tracking skills. This online course delivers engaging lessons, activities, quizzes, assignments and resources.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

♦ Business **♦**

Exploring Business MS - ED| 🖈 | 💂

Are you interested in business, leading people, or making decisions to help a business be successful? While there are many different career choices in the field of business, in this course, you'll discover options such as management, human resources, business operations, information management, and accounting. Explore the skills you'll need, common tasks, the technology used, and characteristics of various business careers.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: eDynamic

Career Exploration 1 Charting Your Path MS - ED| 🛣 | 💂

How do you pick a career path when you're not sure what's even out there? This course allows you to begin exploring options in fields such as teaching, business, government, hospitality, health science, IT, and more! You'll align your interests, wants, and needs to career possibilities, including the required education for each. Let's find a pathway that works for you.

Grades: 06 07 08 | Non-Essential | First Semester | Platform: eDynamic

Career Exploration 2 MS - ED 🖈 💂

Imagine that it's 20 years from now. What career do you see yourself in? What do you imagine that you'll be doing? In this course, you'll explore more careers and what it takes to succeed in different fields. You'll learn more about what steps are needed to prepare for your career and how to compare the pros and cons of different career choices to find one that's best for you.

Grades: 06 07 08 | Non-Essential | Second Semester | Platform: eDynamic

Exploring Health Science MS - ED |

Where do healthcare workers spend their days? What do they really do? From cruise ships to sports arenas, you can find healthcare workers in many places that you might not expect. Explore this field, including what it would be like to work in a medical lab. Learn what it takes to keep you and your patients safe, and begin to learn about the human body and basic first-aid.

♦ English Language Arts **♦**

Beginning Nature Journaling MS - GL | 🖈 | 🖗

Do you like to draw or write but don't feel that you are good at it? Are you willing to draw or write though it's not something you do for fun? Do you like to explore nature and nature topics? Through informal sketching, drawing, painting and writing, students will explore nature observation through journaling both indoors and outdoors. No artistic ability required, just a willingness and motivation to try! This online course offers videos, short online quizzes and many opportunities for students to sharpen their curiosity, observation skills, and confidence in "hand to paper" expression of what their senses experience.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

Creative Writing MS - ED |

Literature is an important form of art that allows us to give voice to our emotions, create imaginary worlds, express ideas, and escape the confines of reality. Explore the writing process and find inspiration to build a story of your own, and learn literary techniques to create hybrid forms of poetry and prose. Let's turn your creative thoughts and ideas into pieces of creative writing.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: eDynamic

Essentials in Writing 6 - EW |

Essentials in Writing Grade 6 is a video-based writing course designed to empower young writers and supplement any core English Language Arts program. Students watch online video lessons that are presented in a systematic, step-by-step approach and then proceed to writing assignments. The writing lessons and assignments are presented in small "chunks" to help students understand, apply, and retain concepts. After a new or reviewed concept has been taught, the video teacher "shows" students HOW to apply the new concept in writing. Students submit writing assignments to a Gull Lake certified teacher who will provide feedback and be available to meet in person. Both grammar and composition lessons are taught. This course includes a printed textbook/workbook that will help support student learning.

Grades: 06 | Non-Essential | Full Year | Platform: Essentials In Writing

Essentials in Writing 7 - EW |

Essentials in Writing Grade 7 is a video-based writing course designed to empower young writers and supplement any core English Language Arts program. Students watch online video lessons that are presented in a systematic, step-by-step approach and then proceed to writing assignments. The writing lessons and assignments are presented in small "chunks" to help students understand, apply, and retain concepts. After a new or reviewed concept has been taught, the video teacher "shows" students HOW to apply the new concept in writing. Students submit writing assignments to a Gull Lake certified teacher who will provide feedback and be available to meet in person. Both grammar and composition lessons are taught. This course includes a printed textbook/workbook that will help support student learning.

Grades: 07 | Non-Essential | Full Year | Platform: Essentials In Writing

Essentials in Writing 8 - EW |

Essentials in Writing Grade 8 is a video-based writing course designed to empower young writers and supplement any core English Language Arts program. Students watch online video lessons that are presented in a systematic, step-by-step approach and then proceed to writing assignments. The writing lessons and assignments are presented in small "chunks" to help students understand, apply, and retain concepts. After a new or reviewed concept has been taught, the video teacher "shows" students HOW to apply the new concept in writing. Students submit writing assignments to a Gull Lake certified teacher who will provide feedback and be available to meet in person. Both grammar and composition lessons are taught. This course includes a printed textbook/workbook that will help support student learning.

Grades: 08 | Non-Essential | Full Year | Platform: Essentials In Writing

This course delivers engaging lessons, assignments, and fun activities.

Personal Wellness MS: Level 3 - GL |

This intermediate online course will expand upon students' knowledge of current trends in health, nutrition, physical activity and wellness in daily life. Students will explore a combination of health and fitness concepts that focus on understanding personal choice and responsibility and how it relates to living a healthy lifestyle. Some topics include dietary choices, improving personal fitness, maintaining a healthy weight and mental health. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

Grades: 08 | Non-Essential | Full Year | Platform: GLVP

Sports and Fitness MS: Level 1 - GL |

This online course will help students to learn the basics about the fundamental effects of exercise on the body. The content will also introduce knowledge on proper principles and techniques necessary in designing an effective exercise program including nutrition and biomechanics. Rules, history and proper etiquette for various sports will also be learned. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

Sports and Fitness MS: Level 2 - GL | •

This online course will help students to take their skills and knowledge to the next level about the fundamental effects of exercise on the body. The content will also build upon the proper principles and techniques necessary in designing an effective exercise program including nutrition and biomechanics. Rules, history and proper etiquette for various sports will also be learned. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

Grades: 07 08 | Non-Essential | Full Year | Platform: GLVP

Sports and Fitness MS: Level 3 - GL |

This intermediate online course will expand upon students' knowledge of the fundamental effects of exercise on the body. The content will also further expand knowledge on proper principles and techniques necessary in designing an effective exercise program including nutrition and biomechanics. Rules, history and proper etiquette for various sports will also be learned. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

♦ Science **♦**

Adventures in Africa MS - GL |

This online middle school course is designed to explore the continent of Africa in an educational and engaging manner. Learn about the people and culture of some of the countries, the history, different languages, education, and foods. Learn and research the animals and ecosystems, African biomes, biodiversity, amphibians, reptiles, birds, insects, mammals, and wildlife conservation, and career paths. Students will choose their favorite country in Africa and create a presentation of their project. This course delivers engaging assignments, interesting videos, and quizzes.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

Earth and Space Science MS A - LI |

In Middle School Earth and Space Science, students study the planet Earth and the extensive solar system structure in which it resides. They evaluate Earth's climate and its weather patterns and changes, and they learn about life science and how chemistry and physics play a role in Earth's major processes. Students also investigate climate change and the ways in which global warming impacts Earth. By evaluating the numerous facets of our planet, students prepare for higher level and more subject-specific science courses.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: Lincoln

Earth and Space Science MS B - LI |

In Middle School Earth and Space Science, students study the planet Earth and the extensive solar system structure in which it resides. They evaluate Earth's climate and its weather patterns and changes, and they learn about life science and how chemistry and physics play a role in Earth's major processes. Students also investigate climate change and the ways in which global warming impacts Earth. By evaluating the numerous facets of our planet, students prepare for higher level and more subject-specific science courses.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: Lincoln

Great Minds in Science MS: Ideas for a New Generation - ED |

What can we learn from animals and plants in different environments? Does life exist on other planets? Today, scientists, explorers, and writers are working to answer such questions. Like such famous minds from history as Edison, Einstein, Curie, and Newton, today's scientists are finding ways to revolutionize our lives and the world. Explore the extraordinary work of notable great minds in science and how their ideas may very well shape the world of tomorrow.

Grades: 07 08 | Non-Essential | First or Second Semester | Platform: eDynamic

Life Science MS A - LI |

Middle School Life Science introduces students to an integrated approach to physical and life sciences. Students study science concepts and problem solving, while exploring the many aspects of the living and nonliving world around them. Students review numerous cycles of life and study their impact on animal, plant, and human life. Students also investigate important topics in histology, heredity, and the biology of living organisms.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: Lincoln

Life Science MS B - LI |

Middle School Life Science introduces students to an integrated approach to physical and life sciences. Students study science concepts and problem solving, while exploring the many aspects of the living and nonliving world around them. Students review numerous cycles of life and study their impact on animal, plant, and human life. Students also investigate important topics in histology, heredity, and the biology of living organisms.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: Lincoln

Physical Science MS A - LI |

Middle School Physical Science introduces students to the foundational concepts of both physics and chemistry. Students begin by studying topics related to the nature of science and engineering, where they gain the skills necessary to succeed in inquiry-based and engineering labs. They move on to learn the general principles of chemistry and physics, including matter and energy, chemical reactions, motion and forces, and interactions of waves. This course allows students to explore these major concepts through unique labs based on real-world phenomena.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: Lincoln

Physical Science MS B - LI |

Plants and Herbs Around the World! MS - GL |

In this online course, we will explore amazing plants and herbs from different countries and cultures. Students will learn about their uses in cooking, medicine, and traditions. Get ready to discover how plants connect us all! This interactive online course is packed with engaging lessons, quizzes, and fun projects.

Survey in Nature MS: Natural Systems - GL | 🖈 | 🕹

This online course is designed for students to learn about scientific inquiry in a fun and engaging way. Students will complete weekly assignments, as well as weekly quizzes and a comprehensive test each semester to prepare them for the culminating science fair. A variety of topics from nature will be explored at a basic, introductory level. Topics covered include chemical reactions, animal cell structure and function, forensic science, acids and bases, layers of the earth, oceanography, and meteorology.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

♦ Social Studies ◆

Native American Oral Traditions MS - GL | 🍑

This course will offer students an overview and exploration of Native American oral traditions, the medium in which indigenous peoples of North America used to preserve and pass on their history, knowledge, and folklore. Students will study this oral literature through songs, poems, and creation stories with the objective of understanding important characteristics of the Native American legacy and its cultural importance in American history. By the end of the course, students will be able to define the term oral tradition and explain how different groups of indigenous people in North America used this type of communication to transmit their culture to future generations.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

♦ World Language **♦**

△NEW American Sign Language MS: 1 Entry Level - GL | ♥

Students taking the Middle School ASL 1 course sequence will attain beginner ASL proficiency. Areas covered in Entry level include the alphabet, numbers, simple finger-spelling, personal pronouns, introductions, and fun common vocabulary. Emphasis will be placed on understanding, with some signing. This online course provides ASL learning through engaging assignments, quizzes and fun activities.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

American Sign Language MS: 1 Mid Level - GL | 🍄

Students taking the Middle School ASL 1 course sequence will attain beginner ASL proficiency. Areas covered in Mid Level include larger numbers, more complex finger-spelling, fun common vocabulary, and common verbs. We'll begin to sign more, and construct simple sentences. This online course provides ASL learning through engaging assignments, quizzes and fun activities.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

△NEW American Sign Language MS: 1 Proficient Level - GL | ♥

Students taking the Middle School ASL 1 course sequence will attain beginner ASL proficiency. Areas covered in Proficient level include larger numbers, more complex finger-spelling, fun common vocabulary, and common verbs. We'll begin to sign more, and construct simple sentences. This online course provides ASL learning through engaging assignments, quizzes and fun activities.

Grades: 08 | Non-Essential | Full Year | Platform: GLVP

American Sign Language MS: 2 Entry Level - GL |

This online course follows successful completion of ASL 1 or teacher approval. At the Entry Level, students will continue building vocabulary and conversational sign language proficiency. Fun and engaging weekly lessons and assignments about topics that are relevant to you include more fingerspelling, number applications, and short stories. In the ASL 2 MS Entry Level, we'll include ASL 1 review, and move into more advanced topics, detailed vocabulary, and short stories.

Around The World With Language MS - GL |

Did you know that there are around 7,000 different languages in the world? And 195 different countries! Wow! In this class, middle schoolers will learn and explore different languages (not all 7,000!!) and the cultures associated with them. Students will learn some vocabulary and expressions, and visit (virtually, of course) the countries to experience some sites, celebrations, and cultures. The course ends with a project where students create a trip to their favorite destination from class.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: GLVP

Culinary Kitchen International! MS: Level 1 - GL | ★ | ♥

In this exciting online course, you'll explore the amazing food and cultures from around the world, as well as right here in the United States, all while learning the basics of cooking! You'll get to try cooking dishes from different countries and learn how to prepare fruits, veggies, grains, dairy, and protein foods. We'll also talk about kitchen tools, cooking safety, and keeping your kitchen clean. This online course is full of fun assignments, quizzes, and activities that will help you learn and practice new cooking skills!

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

Culinary Kitchen International! MS: Level 2 - GL |

In this intermediate online course, students will continue their culinary journey, diving deeper into the food cultures of the world while honing their cooking techniques. This course focuses on building upon the foundational skills learned in Level 1 by exploring more complex ingredients and dishes, emphasizing food pairings, cooking methods, and flavor profiles. Students will continue to learn about safety, sanitation, and equipment but will also be introduced to advanced cooking concepts like baking, grilling, and sautéing. Through hands-on assignments and virtual experiences, students will cook dishes from a variety of countries, enhancing their understanding of both traditional and modern culinary practices.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

Exploratory French A MS - GL |

This course is designed to give students exposure to French language by learning some of the basics. Students will also learn about places in French speaking countries and some fun things about French culture. The course will utilize a mixture of online lessons and practice and games/activities with a small group of students who are taking the same course.

Grades: 06 07 08 | Non-Essential | First or Second Semester | Platform: GLVP

Exploratory Spanish I MS - GL | 🏻

This Spanish class offers middle school students the opportunity to explore the study of Spanish by building a vocabulary base and concentrating on listening skills as they hear the language in the context of short stories. This class also focuses on learning the four basic language skills: listening, speaking, reading and writing. This virtual course delivers engaging videos, activities and assignments. Students will also have the opportunity to look into the culture of the Spanish speaking world.

Grades: 06 07 08 | Non-Essential | Full Year | Platform: GLVP

German MS 2A - MV | 📮

This course is the first in a two-course sequence. Students continue their introduction to German by focusing on the four key areas of listening, speaking, reading, and writing. Each unit consists of a new vocabulary theme and grammar concept, reading and listening comprehension activities, speaking and writing activities, multimedia cultural presentations, and interactive activities and practices which reinforce vocabulary and grammar. There is a strong emphasis on providing context and conversational examples for the language concepts presented in each unit. Prerequisites: German 1B (Middlebury - Grades 6-8)

Grades: 06 07 08 | Non-Essential | First Semester | Platform: Michigan Virtual

German MS 1A - MV |

This course is the first in a two-course sequence. Students begin their introduction to German by focusing on the four key areas of listening, speaking, reading, and writing. Each unit consists of a new vocabulary theme and grammar concept, reading and listening comprehension activities, speaking and writing activities, multimedia cultural presentations, and interactive activities and practices which reinforce vocabulary and grammar. There is a strong emphasis on providing context and conversational examples for the language concepts presented in each unit.

Grades: 06 07 08 | Non-Essential | First Semester | Platform: Michigan Virtual

German MS 1B - MV |

This course is the second in a two-course sequence. Students begin their introduction to German by focusing on the four key areas of listening, speaking, reading, and writing. Each unit consists of a new vocabulary theme and grammar concept, reading and listening comprehension activities, speaking and writing activities, multimedia cultural presentations, and interactive activities and practices which reinforce vocabulary and grammar. There is a strong emphasis on providing context and conversational examples for the language concepts presented in each unit.

Grades: 06 07 08 | Non-Essential | Second Semester | Platform: Michigan Virtual

German MS 2B - MV | 💂

This course is the second in a two-course sequence. Students continue their introduction to German by focusing on the four key areas of listening, speaking, reading, and writing. Each unit consists of a new vocabulary theme and grammar concept, reading and listening comprehension activities, speaking and writing activities, multimedia cultural presentations, and interactive activities and practices which reinforce vocabulary and grammar. There is a strong emphasis on providing context and conversational examples for the language concepts presented in each unit. Prerequisites: German 2A (Middlebury - Grades 6-8)

High School

Essential Virtual Course Descriptions

♦ English Language Arts **♦**

English 10A - LI | \heartsuit | EXAM

This is the first course in a two-course sequence. Students will read engaging works and explore topics of interest as they develop their reading, writing and speaking skills. Students will use essential questions to focus on a topic for each unit. Prerequisites: 9th Grade English

Grades: 10 | Essential | First or Second Semester | MMC English 10A | NCAA | Platform: Lincoln

English 10B - LI | P | EXAM

This is the second course in a two-course sequence. In this course students will read engaging works and explore topics of interest as they develop their reading, writing, and speaking skills. Students will use essential questions to focus on a topic for each unit. The course is aligned to the Common Core Standards. Prerequisites: English 10A

Grades: 10 | Essential | First or Second Semester | MMC English 10B | NCAA | Platform: Lincoln

English 11A (American Lit) - LI | 🍄 | 💷 EXAM

This is the first course in a two-course sequence. Two major themes for this course are Leadership at Home and Leadership in Society. Students will address several Y questions related to these themes while reading a variety of works by American authors. In addition to major works, students will read short stories and informational texts, engage in poetry analysis, view informational videos, and write for various purposes. Larger writing assignments include an informative essay and a major research project. Students partake in grammar challenges where they learn about grammar concepts and develop a mastery of their use. In addition to building their writing skills, students learn several reading strategies such as how to use graphic organizers to extract important information, take Cornell notes for an informational text or during a lecture, and summarize to monitor comprehension. Furthermore, students will explore several rhetorical devices and strategies like symbolism, dialect, author's purpose, foreshadowing, persuasive devices, setting and more. Prerequisites: English 10

Grades: 11 | Essential | First or Second Semester | MMC English 11A | NCAA | Platform: Lincoln

English 11B (American Lit) - LI | \Diamond |

This is the second course in a two-course sequence and has been redesigned to align to the Common Core Standards. Two major themes for this semester are Becoming My Own Leader and Leading Others. Students will address several questions related to these themes while reading a variety of works by American authors. In addition to major works, students will read short stories and informational texts, engage in poetry analysis, view informational videos, and write for various purposes. Larger writing assignments include an argument essay, a narrative essay, and a business email. As a supplement to these assignments, students will partake in grammar challenges where they learn about grammar concepts and develop a mastery of their use. In addition to building their writing skills, students learn several reading strategies such as how to use graphic organizers to extract important information, take Cornell notes for an informational text or during a lecture, and summarize to monitor comprehension. Furthermore, students will explore several rhetorical devices and strategies like characterization, allusion, word choice and diction, setting, symbolism, point of view, and more. Prerequisites: American Literature A (English 11A).

Grades: 11 | Essential | First or Second Semester | MMC English 11B | NCAA | Platform: Lincoln

English 12A (British Lit) - LI | \Diamond | EXAM

British Literature provides students with a survey of literature in this genre. Students explore the Anglo-Saxon and medieval eras, the English Renaissance, and the Restoration and Enlightenment periods. They analyze how authors from this region have traditionally constructed texts and developed prominent and long-lasting literature. In this course, students examine a variety of styles and use the vocabulary that is characteristic of literature pieces they are reading. This course offers students numerous chances to discuss, analyze, synthesize, and evaluate the texts they read through a wide range of writing and thinking exercises.

Grades: 12 | Essential | First or Second Semester | MMC English 12A | NCAA | Platform: Lincoln

English 12B (British Lit) - LI | | | | |

Grades: 12 | Essential | First or Second Semester | MMC English 12B | NCAA | Platform: Lincoln

This is the first course in a two-course sequence. As students progress through the course, they will explore two main themes, Courage and Choice, and address essential questions while reading a variety of works. Students will read novels, short stories and informational texts, engage in poetry analysis, view informational videos and write for various purposes. Larger writing assignments include a research project and a narrative essay. As a supplement to these writing assignments, students will partake in grammar challenges where they learn about grammar concepts and develop a mastery of their use. In addition to building their writing skills, students will learn several reading strategies such as how to use graphic organizers to extract important information and summarize to monitor comprehension. Furthermore, students will explore several rhetorical devices and strategies like symbolism, figurative language, theme, setting and more. Prerequisites: 8th Grade English.

Grades: 09 | Essential | First or Second Semester | MMC English 9A | NCAA | Platform: Lincoln

English 9B - LI | Φ | EXAM

This is the second course in a two-course sequence. The two major themes for this semester are Survival and Discovery. As students progress through these themes, they will address several essential questions related to these themes while reading a variety of works. In addition to major works, students will read short stories and informational texts, engage in poetry analysis, view informational videos, and write for various purposes. Some of the larger writing assignments include a research project and a narrative essay. As a supplement to these writing assignments, students will partake in grammar challenges where they learn about grammar concepts and develop a mastery of their use. In addition to building their writing skills, students will learn several reading strategies such as how to use graphic organizers to extract important information and summarize to monitor comprehension. Furthermore, students will explore several rhetorical devices and strategies like characterization, allusion, word choice and diction, setting, and more. Prerequisites: English 9A.

Grades: 09 | Essential | First or Second Semester | MMC English 9B | NCAA | Platform: Lincoln

♦ Math **♦**

Algebra IA - LI | 🏻 | 🕮

In Algebra I, students explore variables, function patterns, graphs, and equations. They will describe and translate graphic, algebraic, numeric, and verbal representations of relations and use those representations to solve problems. Students will develop computational, procedural, and problem solving skills throughout this course, building a solid foundation for further study in mathematics.

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC Algebra 1A | NCAA | Platform: Lincoln

Algebra IB - LI | 🛛 | 🗉 EXAM

In Algebra I, students explore variables, function patterns, graphs, and equations. They will describe and translate graphic, algebraic, numeric, and verbal representations of relations and use those representations to solve problems. Students will develop computational, procedural, and problem solving skills throughout this course, building a solid foundation for further study in mathematics.

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC Algebra 1B | NCAA | Platform: Lincoln

Algebra IIA - LI | 🛛 | 🗉 EXAM

In Algebra II, students analyze situations verbally, numerically, graphically, and symbolically. Students solve equations and inequalities. They extend their knowledge of algebraic expressions, absolute value, functions, and graphs. The Algebra II course prepares students for more difficult mathematical concepts and content.

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC Algebra 2A | NCAA | Platform: Lincoln

Algebra IIB - LI | 🕅 | 💷 EXAM

In Algebra II, students analyze situations verbally, numerically, graphically, and symbolically. Students solve equations and inequalities. They extend their knowledge of algebraic expressions, absolute value, functions, and graphs. The Algebra II course prepares students for more difficult mathematical concepts and content.

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC Algebra 2B | NCAA | Platform: Lincoln

Geometry A - LI | \heartsuit | EXAM

In Geometry, students explore the relationships that exist within geometric figures, such as triangles, circles, and quadrilaterals. Students analyze the relationships and use mathematical postulates and theorems to write proofs. The explored relationships are also used to solve mathematical and real-world problems and to perform geometric constructions. The students are introduced to the concept of probability and to parabolas.

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC Geometry A | NCAA | Platform: Lincoln

Geometry B - LI | \Diamond | \square EXAM

The explored relationships are also used to solve mathematical and real-world problems and to perform geometric constructions. The students are introduced to the concept of probability and to parabolas.

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC Geometry B | NCAA | Platform: Lincoln

♦ Science **♦**

Biology A - LI | | | | | EXAM

Students begin by exploring the foundations of biology, the chemistry of life, and the structure and function of cells. Then, they dive into the basics of cellular energy, including photosynthesis and cellular respiration. Next, cellular development and reproduction are explored, including mitosis and meiosis. The principles of heredity and the manipulation and testing of DNA are also examined. Semester one concludes with a look at the history of life, including the fossil record and geologic time scale.

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC Biology A | NCAA | Platform: Lincoln

Students investigate the principles of evolution and how populations change over time. Students continue by studying the basics of ecology and how organisms are intertwined within communities. The ecosystems within the biosphere are explored, as well as the impacts humans have on Earth's environment. Next, the classification system used to categorize organisms on Earth is explored, and the behaviors of animals are studied. Finally, the course culminates with a look at how organisms maintain homeostasis and how human body systems work.

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC Biology B | NCAA | Platform: Lincoln

Chemistry A - LI | 📮 | 🗉 EXAM

Chemistry gives students a deeper understanding of the world around them as they investigate how chemistry is involved in everyday life. Students explore fundamental chemistry content and concepts, including the metric system, the periodic table, atomic structures, bonding, chemical reactions, and nuclear reactions. They apply their knowledge and science process skills through labs that use common, household objects in order to explore the practicality of chemistry. As a prerequisite to Chemistry, students must have completed Algebra I and must possess basic spreadsheet, word processing, and presentation software knowledge.

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC Chemistry or Physics | NCAA | Platform: Lincoln

Chemistry B - LI | 📮 | 💷

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC Chemistry or Physics | NCAA | Platform: Lincoln

Physics A - LI | \(\subseteq | \text{EXAM} \)

Students enrolled in Physics advance their knowledge and understanding of concepts in previous general science courses. In this course, students examine classical mechanics while learning to calculate concepts in one-dimensional, two-dimensional, and circular motion. Student explore work and energy in addition to the concepts of waves, sound, light, optics, and electromagnetism. The course concludes with an analysis of nuclear physics and a debate on quantum physics. This course requires students to use fundamental algebra and analytical skills to solve problems and analyze situations. As a prerequisite to Physics, students must have completed Algebra I and must possess basic spreadsheet, word processing, and presentation software knowledge. While the completion of Trigonometry is not required, a pre- or corequisite of Trigonometry will allow students to be better prepared for calculations involving dynamics, vectors, and kinematics.

Economics - LI | 💂 | 📴 EXAM

Economics presents an overview of microeconomics and macroeconomics. It discusses economic theories, economic systems, various economic concepts, and the global economy. Students will examine the economy of the United States in depth and compare it to other economies. Students will also explore personal banking and how to prepare for their financial future. Recommended to take in 12th grade.

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC Economics | NCAA | Platform: Lincoln

U.S. History A - LI | 🖵 | EXAM

In United States History, students study United States history by exploring important historical moments from the Reconstruction era through the end of World War II. Students learn about the industrialization of this growing nation and the economic and social changes it underwent as the nation transitioned from an agricultural society to an industrial society. Students also analyze the challenges the nation faced as it was forced to choose between isolation and involvement in international armed conflicts. This course guides students as they interpret the extraordinary changes the nation went through after the American Civil War and examine how those changes ultimately led to the United States' emergence as an international power at the conclusion of World War II. Recommended to take in 10th grade.

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC US History A | Platform: Lincoln

World History allows students to investigate significant events, people, and places from prehistoric to modern times. Studying world history allows students to consider the historical relevance of people, places, and events. In this wide-ranging course, students learn how the world and its inhabitants were shaped over time, and, in the process, gain a better understanding of the role that geography plays in world history. Recommended to take in 11th grade.

Grades: 09 10 11 12 | Essential | First or Second Semester | MMC World History B | NCAA | Platform: Lincoln

High School

Non-Essential Virtual Course Descriptions

♦ Applied Technology **♦**

3D Modeling - ED |

Are you curious about working in fields like virtual reality, video game design, marketing, television and motion pictures, or digital imaging? This is a great place to start as it is the foundation for all these career paths. Explore graphic design and illustration as you use 3D animation software to create design projects while developing your drawing, photography, and 3D construction techniques. Let's get creating!

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC VPAA | Platform: eDynamic

Advanced Bushcraft HS: Level 1 - GL | 🖈 | 🍄

This online course takes students to the next level, focusing on the skills needed to not only survive but truly flourish in the wilderness over an extended period. Advanced Bushcraft teaches students to build long-term base camps using only basic hand tools. Emphasis is placed on resourcefulness, as students will learn to craft essential survival gear from natural materials. Students will also gain proficiency in constructing long-term shelters that include heating, cooking, and lighting solutions, as well as creating comfortable, functional furniture from natural resources. The course goes beyond immediate survival and explores self-sufficiency in the wild, preparing students to design and construct their own backpacks, snowshoes, food caches, and tools. By the end of the course, students will have developed the practical and theoretical knowledge to live independently and sustainably in the wilderness. This online course delivers engaging lessons, activities, quizzes, assignments and resources.

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

Advanced Bushcraft HS: Level 2 - GL | 🗡 | 🖗

At the expert level, students master the art of long-term wilderness living. This online course is for those who seek to become true survivalists, capable of thriving in any environment for extended periods. Students will refine their ability to design and construct advanced shelters, base camps, and self-sustaining systems, incorporating heating, cooking, and lighting solutions to create a fully functional outdoor living space. The curriculum includes advanced skills in food preservation, resource management, and crafting tools from raw materials. Students will also perfect their hunting, fishing, and foraging abilities, and learn how to preserve food for long-term storage. By the end of the course, students will be equipped with the expertise to survive, and even flourish, in the wilderness for months or even years, relying solely on their own skills and the natural environment. This course combines practical experience with deep research and independent projects to build true mastery in survivalism. This online course delivers engaging lessons, activities, quizzes, assignments and resources.

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

AI Explorers HS - GL |

AI Explorers is an introductory high school course that brings the world of Artificial Intelligence to life for students. Through hands-on activities, engaging lessons, and age-appropriate projects, students will learn how AI works, where it is used, and its potential to shape the future. They'll explore basic and intermediate AI concepts, see how machines "learn," and examine the ethical implications of AI in our lives.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: GLVP

Animation 1A: Introduction - ED | ★ | 💂 | □ EXAM

Have you ever watched a cartoon or played a video game where the animation of characters captivated you so much you wanted to create your own? If so, it's time to immerse yourself in the world of animation. Meet the industry players such as directors, animators, and 3D modelers. Develop your story by exploring design, the 12 principles of animation, creating a storyboard, and leveraging the tools of the trade. Let's bring your story to life with animation!

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC VPAA | Platform: eDynamic

Animation 1B: Animating Your Creativity: - ED| ★ | 💂 | 🕮

It's time to start animating like the pros! In this hands-on course, you'll immediately start exploring the software Blender, your gateway to 3D modeling, computer animation, and postproduction procedures used in the film industry. Discover 3D modeling and animation of characters. Explore the basics of human anatomy and form to apply rigging, joints, and texture. Examine rendering and lighting effects and how to apply sound. And discover careers so you can start using your new skills right away.

Grades: 09 10 11 12 | Non-Essential | Second Semester | MMC VPAA | Platform: eDynamic

AP Computer Science A - MV | 💂 | 🗊 EXAM

This course is aligned to the Advanced Placement curriculum for Computer Science A. AP Computer Science is a college level computer course covering the applications of computing within the context of programming methodology, algorithms, and data structures. The Java computer language which is a free download for either a Macintosh or a Windows platform. This course requires a proctored mid-term and final exam. Course does not include the AP Exam; students can contact their school's AP Coordinator or the College Board to sign up to take the Exam. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored.

Grades: 09 10 11 12 | Non-Essential | First Semester | NCAA | Platform: Michigan Virtual

Grades: 09 10 11 12 | Non-Essential | Second Semester | NCAA | Platform: Michigan Virtual

Applied Engineering 1A: Introduction - ED | 🖵 | 💷

Discover how technology has changed the world around us by pursuing technological solutions to everyday problems. While using scientific and engineering methods, learn how electricity, electronic systems, magnets, and circuits work. Understand the design process and bring your ideas to life. Explore how engineering advances your ideas and the world!

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: eDynamic

Applied Engineering 1B: Solving Problems Together - ED | 💂 | 💷

Do you like to invite solutions to solve problems? Applied engineering has advanced areas such as energy, transportation, health and genetics, alternative energy, food packaging, etc. Explore various inventions and solutions that have solved problems across industries. Examine how artificial intelligence and technology are making an impact on breakthroughs. Evaluate the range of robotic and STEM-related career options available for you to make a difference in lives with your contributions and innovations. Prerequisite: Applied Engineering 1A

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: eDynamic

Being a Successful Online Learner HS - GL |

This course will cover a broad range of topics for online learning success: keyboard skills, digital citizenship, computer basics and using Google Apps, study skills, time management for an asynchronous schedule, effective online communication, presentation tools, and more. Students will be able to demonstrate an understanding of what virtual learning encompasses and the skills needed to succeed, both personal and professional, with a focus on GLVP courses. Proficiency in using platforms and accessing courses; demonstration of independent learning skills for studying, creating planners, and using Google Apps; and knowledge of students' own digital footprint and digital citizenship will be developed throughout the course.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: GLVP

Coding 1A: Introduction to Programming HS - ED | 🖈 | 💂 | 🕮

Learning to code is like learning a clandestine language, and now is your chance to get in on the secret! In this course, you will learn about the building blocks of coding. You'll explore how real-world problems can be broken into algorithms described through coding and then use the approachable and versatile coding language of Python to generate the output you're looking for. You'll cover both procedural and object-oriented programming and even create two text-based adventure games along the way.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC VPAA | Platform: eDynamic

Coding 1B: Plan, Design, Develop HS - ED | 🖈 | 💂 | 💷

In this course, you'll continue working with Python, but you'll also add other languages like HTML, CSS, and JavaScript to your coding toolkit as you build and style a web app! You'll explore data structures to process information, how to stay on schedule and prepare for app updates, and how to improve the functionality, look, and safety of your app. Each new coding challenge we meet invites us to expand our skills, and there's always room for creativity when you you're working with code.

Grades: 09 10 11 12 | Non-Essential | Second Semester | MMC VPAA | Platform: eDynamic

Computer Maintenance 1A - ED | 💂 | 💷 XAM

Computers are soldered into all aspects of our daily life, and when they stop working, it can seem like our network has collapsed. If you are fascinated by the inner workings of computers and how to keep them running, then a career in computer maintenance may be for you! In this course, you'll learn how computers are set up starting with the software and operating systems and what to do when hardware and software issues are encountered. You'll learn different types of data communication, various power supply units, essential components like motherboards and memory, and much more! Grab your personal expansion card, and let's hardwire some new knowledge about computer maintenance.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC CTE | Platform: eDynamic

Computer Maintenance 1B: Network Needs - ED | 🖳 | 💷

Almost anywhere we go today, from malls to coffee shops, and even our homes is an intertwined web of wired, wireless, and cloud-based networks that access our personal data. In this course, you'll dig into computer networks and their extensive capabilities. You'll explore data exposure and how to mitigate threats, discuss the fundamentals of network design and layout, learn how cloud-based services store data, discover the differences between wired and wireless networks, and dream of possibilities as you explore fun network options like smart home systems. Let's continue navigating the complex world of computer maintenance.

Grades: 09 10 11 12 | Non-Essential | Second Semester | Platform: eDynamic

Concepts of Engineering & Technology - ED | 💂 | 💷

Learn how the momentum of science is continually propelling engineers in new directions towards a future full of insight and opportunity. Explore the different branches of engineering and how problem-solving, sketching, collaboration, and experimentation can change the very fiber of our human lives. By examining astounding engineering feats and complex ongoing issues, you'll begin to question whether the word impossible really exists.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: eDynamic

Cybersecurity 1A: Foundations - ED | 🖵 | 💷

We depend more on the technologies we interact with every day; and we put more and more of our personal data out there online. Can all of that data really be kept 'secret'? Learn about the various parts of your computer, how they work together, and how you can manipulate them to keep your data safe. Dive into the tools, technologies, and methods that will help protect you from an attack and discover the many opportunities in the rapidly growing field of cybersecurity.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC VPAA | Platform: eDynamic

Cybersecurity 1B: Defense Against Threats - ED | 💂 | 💷

Unmask the cybersecurity threats around you by understanding hackers and identifying weaknesses in your online behavior. Learn to avoid the various types of cyberattacks, including those to your social media accounts, and to predict the potential legal consequences of sharing or accessing information that you do not have rights to. Dig into these crimes in depth by taking a look at cyber forensics and other cybersecurity careers. Cybersecurity will play an increasingly larger role in our personal and professional lives in the years to come.

Grades: 09 10 11 12 | Non-Essential | Second Semester | MMC VPAA | Platform: eDynamic

Digital Design 1A - ED | 💂

Are you an artistic person drawn to the idea of creating graphic elements? Then a career in digital design may be for you! In this course, you will learn the basic principles of design, the tools needed to succeed in the industry, and how to design objects for specific purposes and audiences. You'll also learn how to market yourself and open your own design business all while building a portfolio. Let's align your skills and dreams today for a career in digital design!

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC CTE | Platform: eDynamic

Digital Design 1B - ED | 💂

Grades: 09 10 11 12 | Non-Essential | Second Semester | MMC CTE | Platform: eDynamic

Field Experiences: Arts and Tech HS - GL |

This online course for high school students explores the vibrant intersection of art and technology in the Great Lakes region. Students will explore how technology is transforming the way we create and experience art, while participating in hands-on activities that encourage their own creative expression. Throughout the course, students will gain a deeper understanding of how the Great Lakes region blends art, technology, and culture to drive innovative ideas and inspire the future of creativity.

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

Foundations of Critical Thinking HS: Mastering the Art of Reasoning - GL |

This interactive online course uses game-based learning to develop essential analytical and problem-solving skills. Students tackle challenges, puzzles, and strategy-based activities that encourage them to question assumptions, identify biases, and evaluate evidence critically. By engaging in simulations, collaborative quests, and real-world scenarios, students build their ability to analyze data, recognize logical fallacies, construct evidence-based arguments, and creatively solve complex problems, all while earning achievements and leveling up their critical thinking skills.

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

Foundations of Game Design 1A: Introduction - ED 🛣 💂

Does your love of video games motivate you to pursue a career in this field? Pursue your passion by learning about the principles of game design through the stages of development, iterative process, critiques, and game development tools. Put these new skills to work by designing your own game!

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC VPAA | Platform: eDynamic

Foundations of Game Design 1B: Storytelling, Mechanics, and Production - ED 🔀 🖳

Now that you have the basics of game design down, let's use your creativity to develop a game from start to finish! Develop your game creation skills and practice with the tools professionals use to launch your career options in the field of game design. The content of this course also applies to certification exams.

Grades: 09 10 11 12 | Non-Essential | Second Semester | MMC VPAA | Platform: eDynamic

Introduction To Artificial Intelligence HS - MV |

This course teaches what every student should know about Artificial Intelligence. AI is a fast-moving technology with impacts and implications for both our individual lives and society as a whole. In this course, students will get a basic introduction to the building blocks and components of artificial intelligence, learning about concepts like algorithms, machine learning, and neural networks. Students will also explore how AI is already being used, and evaluate problem areas of AI, such as bias. The course also contains a balanced look at AI's impact on existing jobs, as well as its potential to create new and exciting career fields in the future. Students will leave the course with a solid understanding of what AI is, how it works, areas of caution, and what they can do with the technology. NOTE: This course provides an introduction to key concepts, uses, impacts on society, and relevant career explorations. It does NOT involve computer programming or development of artificial intelligence algorithms or programs on the part of the student.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Michigan Virtual

Introduction to Engineering - LI | 💂 | 💷

Introduction to Engineering provides students with an overview of the field of engineering and the primary processes and procedures used by engineers. Student explore engineering careers and their impacts on society, and they learn how mathematics and science are used in the field of engineering. They examine different engineering disciplines, the engineering design process, and various engineering styles and methods used in the field. Students take part in hands-on learning as they work through a real-life design problem and solve it through the steps of the engineering design process. The course concludes with a student-created presentation to demonstrate their solution to the design problem. Introduction to Engineering is an excellent addition to a STEM-centered curriculum. Students must have completed Algebra I as a prerequisite and must possess basic spreadsheet, word processing, and presentation software knowledge.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC VPAA | Platform: Lincoln

Introduction to Programming 1A: Introduction - ED|

Have you ever wondered how your favorite software is created? Explore the software development life cycle from start to finish while developing your own programming skills with Python. Explore the power of data and algorithms along with their influence on the world. Launch yourself into the endless possibilities a career as a programmer can bring you!

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC VPAA | Platform: eDynamic

Introduction to Programming 1B: Problem Solving Through Programming - ED| 🔀 | 💂

Dig deeper and expand your knowledge as you discover how programming can solve a vast array of problems. Plan and develop a problem-solving program while performing testing, debugging, and quality assurance procedures. Design and plan your own app as part of your capstone project to give you a thorough introduction to the world of programming.

Grades: 09 10 11 12 | Non-Essential | Second Semester | MMC VPAA | Platform: eDynamic

Principles of Information Technology 1A: Introduction - ED |

Ready to develop your understanding and proficiency in computers? Explore a range of concepts to gain the foundational knowledge you'll need to start exploring careers in this field to find out which ones suit your interests and abilities. Learn about computer hardware and maintenance to data management and storage options to network systems, administration, and troubleshooting. Then dive into word processing, spreadsheets, and databases to cement your knowledge of information technology!

Grades: 09 10 11 12 | Non-Essential | First Semester | Platform: eDynamic

Principles of Information Technology 1B: Working with Computers - ED |

Take the IT knowledge you have to a more advanced level. Starting with an overview of programming, algorithms, and compilers, you'll then learn the basics of web page design and creating graphics. Explore security and cybercrime, emerging technologies, presentation software, and intellectual property laws. Finally, you will prepare for the future by discovering various careers in this field and planning your education!

Grades: 09 10 11 12 | Non-Essential | Second Semester | Platform: eDynamic

Web Development 1A: Introduction - ED | ★ | 💂

How many times per day do you access the internet, including social media? The web is an important part of our daily lives, so it's no surprise that web development is one of the hottest career fields. Start to explore professional web development, including how to create content for the web. You'll learn about topics such as servers, file organization, HTML, CSS, Javascript, and the development stack that will let you build any website you can dream up.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC VPAA | Platform: eDynamic

Survival and Adventuring HS: Level 1 - GL | ★ | ♥

Students will learn the basics and beyond of survival from identifying and preparing edible plants, to starting a fire, tying knots, basic first-aid, and rappelling. They will also learn to use a map and compass, track animals, and more! We'll learn about how some of these techniques started out and developed over time, and hear from experts in the field on how to safely survive outdoors. Students will learn to forage for, harvest, and prepare types of cambium (inner tree bark), weeds and shrubs. Students will learn the reverse wrap method to quickly make a length of cord, and compare and contrast the various attributes of cordage with each type of fiber used, including strength, flexibility, pliability, and ease/difficulty to obtain said fibers in various seasons and climates. This online course delivers engaging lessons, activities, quizzes, assignments and resources.

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

Survival and Adventuring HS: Level 2 - GL | ★ | ♥

In this intermediate online course, students will deepen their understanding of survival techniques. They'll learn to use a map and compass for navigation and begin tracking animals. The focus will be on expanding their survival toolkit, including foraging for wild plants, harvesting cambium, and using natural fibers to create basic cordage. Students will also explore more advanced knot-tying methods and apply their skills in simulated outdoor scenarios. This online course delivers engaging lessons, activities, quizzes, assignments and resources.

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

♦ Business **♦**

This is the first course in a two-semester Accounting course sequence. Accounting is the process of planning, recording, analyzing, and interpreting financial information. The accounting process includes recording financial activities, but accounting is not the same as bookkeeping or recordkeeping. Bookkeeping is only the recording part of the accounting process. Accounting goes much further than just keeping records. Accounting involves analyzing and interpreting a business's operations to determine its financial well-being and plan its future success. Accounting A is a skills-based course that is of value to all students, whether exploring a career in business or for personal financial needs. Accounting A is an essential course for students who are pursuing a strong background in business, marketing and management. This course covers the complete accounting cycle for a service business organized as a proprietorship, along with journalizing and posting transactions.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC Math related | Platform: Michigan Virtual

This is the second course in a two-semester Accounting course sequence. This course is a continuation of Accounting A. In Accounting B, students will expand their knowledge of accounting procedures by working within the structure of a merchandising business organized as a corporation. Competency will be exhibited in completing payroll taxes and reports, special journals and other financial statements. Prerequisites: Accounting A

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC Math related | Platform: Michigan Virtual

Advertising	- LI		■ EXAM
-------------	------	--	--------

Throughout the Advertising course, students discover the various ways that advertisements touches their lives. This course presents a comprehensive introduction to the field of advertising, which includes its purpose and the theory behind it. In this course, students learn to identify target markets, distinguish different types of business, and interpret the information they gather to create a winning advertising plan. Students investigate the needs and wants of both the consumers to whom they are advertising and the companies for which they are creating the advertisement. Lessons will cover the basic skills and knowledge required to work in the advertising world and will guide students through the creation of a complete advertising plan. Students in this course are presented with a realistic idea of what a career in advertising entails.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Lincoln

Business Applications - LI | 💂 | 💷

In Business Applications, students focus on business software and the corresponding skills required in the business world. The course begins with an overview of computers, including hardware, software, and operating systems. Students explore spreadsheet, word processing, presentation, and database software and discover how to fulfill a customer request using these skills. They also study web-based applications and additional software packages and learn about Internet technology. Students investigate common security concerns and discover how to prevent security issues. Finally, students experience the software development cycle where they learn how various professionals utilize business applications. They discover the importance of moral and ethical responsibility in an online community. *Students must possess basic spreadsheet, word processing, and presentation software skills before entering this course and have access to Microsoft Office 360. Additionally, students must be independent learners, and they must be comfortable learning new technology and researching software features and functions.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Lincoln

Business Communications 1a: Introduction HS - ED | 💂 | 💷

No matter what career you're planning to pursue, excellent professional communication will be key to your success. Upgrade your abilities in speaking, listening, writing, using and reading body language, and communicating in teams and groups. Discover how to plan, create, and deliver business presentations and communicate through graphics. In no time, you'll be communicating with confidence, stand out from your peers, and impress your employer.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: eDynamic

Business Communications 1b: Listen, Speak, & Write In The Workplace HS - ED | 💂 | 💷

You've learned your audience, found your voice, and can read the body's unspoken words. Now, it's time to limber up those fingers and learn the P's and Q's of communicating in a business setting. In this course, you're going to take the basic writing skills you've developed and revise them so you can take new approaches to planning, building, and distributing documents for a business audience. You'll continue to explore the essentials of writing while drafting new understandings of business documents, and then you'll learn to apply your business communication skills to job applications, interviews, and presentations. No matter your career of choice, learning to effectively communicate will help your professionalism grow leaps and bounds. Let's get writing!

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: eDynamic

Sometimes choices between right and wrong are obvious. But what happens when you're faced with a situation that's not so clear-cut? In this course, students will learn to anticipate and address ethical dilemmas that come up in a business setting. They will examine how humans have understood ethics over the years and what matters most in the business world today. Students will investigate actual scenarios and apply all they've learned to address these complicated ethical dilemmas. By the end, students will have developed their ability to work through challenging situations using their own moral imagination. Students will also have a variety of role models, lessons learned from ethical scandals, and ethical skills to draw upon when they face these challenges in real life.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Michigan Virtual

Business Law 1A: Introduction - ED | 🖵 | 💷

Whether you plan on starting your own business or being in charge of one, it is crucial you understand how to keep the company compliant. Explore what it means to run an ethical business, how to keep intellectual property, technology, and e-commerce safe and protected, understand insurance and taxes, and how to have a healthy workplace environment. Keep the business safe and growing by following the law. CTE course

Grades: 09 10 11 12 | Non-Essential | First Semester | Platform: eDynamic

Business Law 1B: Legal Aspects of Business - ED | 💂 | 🕮

Whether you plan to start your own business, work for an organization, or go into law, it's essential to understand more complex legal requirements that impact business operations and decisions. This is especially true as companies grow and expand domestically and internationally. Explore the differences between criminal and civil law. Examine how state and federal regulations work to protect consumer and employees' rights, protect society and the environment, and understand how business contracts can work to protect everyone. CTE Course.

Grades: 09 10 11 12 | Non-Essential | Second Semester | Platform: eDynamic

Business Management - LI | 💂 | 💷

Business Management guides students through examples of their roles as wage earners, consumers, and citizens as they explore the wide, exciting world of business. Students examine topics ranging from extensive credit use to the role of government in the U.S. economy. Students are encouraged to take Introduction to Business as a prerequisite to Business Management, as Business Management dives deeper into the different aspects of managing a business successfully.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Lincoln

Entrepreneurship HS - MV |

Ever wonder what it takes to own your own business, be your own boss and write your own paycheck? Entrepreneurship helps students examine their readiness and passion for such an undertaking. Students will learn what entrepreneurship is all about, develop a business idea, conduct a feasibility analysis, identify their primary customer, learn about financing a business and write a business plan. They will also learn about how to manage their business, including the hiring process, operations, inventory controls and production management. The final step will be developing their strategic plan for the future to help bring their entrepreneurial dreams to reality.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Michigan Virtual

Excel: Office Fundamentals Series - ED | 🔲 | 🕮

Discover the real-world uses of Microsoft Excel and its impact on business, academic, and personal applications. Move from inserting and manipulating data, to working with tables, charts, graphs, and calculations. Content of this course will also be applicable to the Microsoft Office Suite certification exam. CTE course.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: eDynamic

History Of Gaming And ESports HS - LI |

In this course, students will learn about the technologies and design principles that have been the foundation of the development of video game technology over the last 50 years. Students will examine and discuss the impact of video games on culture and the economy. Students will learn about the current gaming and e-sports landscape, including strategies and techniques of top teams and individuals. This course will also discuss the risks and dangers of video games and understand how to set appropriate time and content parameters. Finally, the course will identify career paths and opportunities for those who are passionate about gaming.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Lincoln

International Business: Global Commerce in the 21st Century - ED | 💂 | 💷

With the evolution of technology, our world is more connected than ever before, and the business community today is larger than ever. Gain the knowledge, skills, and appreciation to live and work in the global marketplace. You'll begin to understand how both domestic and international businesses are affected by economic, social, cultural, political, and legal factors and what it takes to become a true manager of global business in the 21st century. CTE course.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: eDynamic

Introduction to Business - LI | 💂 | 💷 XAM

In Introduction to Business, students explore their roles as wage earners, consumers, and citizens as they discover the wide, exciting world of business. In this introductory course, students investigate topics pertaining to investment strategies and business communications that are vital for success in today's economy. Students analyze the impact of marketing and the role of the government in the realm of business and economy.

Grades: 09 10 | Non-Essential | First or Second Semester | Platform: Lincoln

Throughout the Marketing course, students discover the various ways marketing affects their lives. This course introduces students to the study and implementation of market analysis, which focuses on identifying customer needs and desires and supplying them with those exact requests. The course provides a solid foundation for students contemplating careers in marketing, advertising, or other business-related and commercial fields.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC VPAA | Platform: Lincoln

Office Administration 1A: Introduction - ED |

Businesses worldwide and across every industry are always on the lookout for highly skilled administrative professionals to help their business be successful and thrive. Explore what it means to have effective verbal and written communication, speaking, and listening skills to work with diverse people and teams. Then dive into learning how to leverage various technology and software businesses use to stay connected and productive. CTE course.

Grades: 09 10 11 12 | Non-Essential | First Semester | Platform: eDynamic

Career Explorations - LI ★ | 💂 | 📴

Career Explorations allows students to investigate the necessary steps to prepare for careers that match their interests, abilities, and aptitudes. Students research various careers, their roles in society, job duties, required education and qualifications, and salary and outlook. They acquire job-seeking skills such as resume writing, interviewing, and portfolio development skills. Students discover workplace dynamics, how to navigate challenging situations, and explore various techniques for advancing in their chosen career field. This course prepares students to manage the financial challenges they will face as they prepare for a career and future employment. Students apply newly acquired knowledge and skills in a real-world experience to further solidify future career plans.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Lincoln

Career Planning - MV | ★ | 💂 | 💷

This course provides a basic overview of career planning concepts. It gives students the opportunity to learn about, explore and reflect on various career opportunities based on Michigan's six Career Pathways.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Michigan Virtual

Careers in Criminal Justice 1A: Introduction - ED | 💂 | 💷

Have you ever wondered what steps take place as people as they move through the court system? The criminal justice system is a very complex field that requires dedicated people willing to pursue equal justice for all. Explore different career choices and how the juvenile justice system, the correctional system, and the trial process all work together to maintain social order.

Grades: 09 10 11 12 | Non-Essential | First Semester | Platform: eDynamic

Careers in Criminal Justice 1B: Finding Your Specialty - ED | 💂 | 💷

Have you ever thought about a career as a police officer, an FBI or DEA agent, or any occupation that seeks to pursue justice for all? Careers in criminal justice can be found at local, county, state, and federal levels, and even in the private sector. Explore some of the various occupations in this field, while simultaneously learning how they interact with each other and other first responders. Discover various interviewing techniques to uncover the truth. Understand the importance of making ethical decisions, and how you need to keep your sense of right and wrong in check to be successful in this field.

Grades: 09 10 11 12 | Non-Essential | Second Semester | Platform: eDynamic

Careers: Find your Future - MV | 🖵 | 💷

This course is designed to guide students through the process of exploring and choosing potential career pathways. Students will engage in self-exploration activities such as skills and interests assessments and apply what they learn to the process of choosing a career. Course features include an exploration of post-secondary educational options and requirements, informational interview and job shadowing experiences, as well as problem solving and goal setting activities. This student-centered course focuses on helping students get to know themselves so they can find the future that's right for them! Instead of a final exam, students will complete an end-of-course project. To complete this project students will use the assignments in each unit to help them begin to develop an Educational Development Plan (EDP). An Educational Development Plan is designed to help students identify their career and educational goals as they relate to academic requirements. An EDP is a way for students to document their progress toward career and educational goals. If students have already started an EDP at their schools, they can use this final project to update it with the most current information about their career and educational goals. Prerequisites: 8th Grade Reading Level Best for 8-10 graders.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Michigan Virtual

Early Childhood Education 1A: Introduction - ED | 💂 | 💷

Are you curious to see what it takes to educate and nurture early learners? Use your curiosity to explore the fundamentals of childcare, like nutrition and safety, but also the complex relationships caregivers have with parents and their children. Examine the various life stages of child development and the best educational practices to enrich their minds while thinking about a possible future as a childcare provider!

Grades: 09 10 11 12 | Non-Essential | First Semester | Platform: eDynamic

Early Childhood Education 1B: Developing Early Learners - ED | 💂 | 🕮

Discover the joys of providing exceptional childcare and helping to develop future generations. Learn the importance of play and use it to build engaging educational activities that build literacy and math skills through each stage of childhood and special need. Use this knowledge to develop your professional skills well suited to a career in childcare.

Grades: 09 10 11 12 | Non-Essential | Second Semester | Platform: eDynamic

Early College Capstone A - GL |

This is a two semester culminating course required for Grade 13 Early College students. Students will successfully demonstrate college readiness and life skills preparation to launch independently after grade 13. In addition, students will successfully complete a math experience (first semester) to possess a solid understanding of financial aid, completing the (FAFSA) Free Application for Federal Student Aid and scholarship applications.

Communications - LI | 💂 | 🕞 EXAM

In Communications, students explore various aspects of communication. They investigate the foundations of communication by analyzing, applying, and designing creative works essential to the professional communications industry. This course establishes a comprehensive foundation for students interested in a post-secondary career in communications.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC VPAA | Platform: Lincoln

Composition - MV |

In this course, students will study and become proficient in the writing process. Students will learn about essay structure and organization through the development of four common types of essays (narrative, informative, argumentative, and compare and contrast) as well as proper format and etiquette to write a formal e-mail. In addition, they will also learn several grammar concepts that involve sentence structure, punctuation, word usage, and guidelines for academic writing, such as an objective tone, MLA formatting, and in-text citations.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Michigan Virtual

Creative Writing - LI |

Creative Writing is a course in which students discover, analyze, and apply the methods and styles used in various forms of fiction, creative nonfiction, drama, and poetry. It emphasizes experimentation and practice, and it encourages students to take cues from published writers and poets. Students express themselves while learning various genres and their respective writing rules. Students also explore related topics, including word choice, diction, form, editing, idea generation, and other skills useful in nonfiction writing. Students do a great deal of writing in this course.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC VPAA | NCAA | Platform: Lincoln

Debate - LI | 🖳 | 📴 EXAM

In the Debate course, students learn crucial debate terminology, speech strategies, and persuasive techniques. Students investigate rhetoric and learn to consider multiple and divergent perspectives. Throughout this course, students develop the skills necessary to execute a well-versed and effectively supported argument. This study of supporting claims with credible evidence will allow students to engage in effective persuasive discourse.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC VPAA | NCAA | Platform: Lincoln

English Grammar - LI | 💂

Students enrolled in English Grammar explore basic, intermediate, and advanced concepts of grammar, language, style, and composition. By analyzing word meaning and function, students will generate content using appropriate grammatical expressions. Students will examine provided writing samples and their own compositions to enhance their skills. The English Grammar curriculum is designed to cover a half-year of instruction, but it can be completed at each student's own pace.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Lincoln

Introduction to College Writing - LI | 💂 | 🕮

Introduction to College Writing prepares students to create freshman writing pieces as they move toward their post-secondary education. In this course, they learn the skills necessary to build a solid foundation for basic college writing as they focus on informative and persuasive writing. Students practice organization, tone, and style in their work to ensure that they are well-rounded and skilled writers. Finally, students discover how to locate and present research and evidence in a logical, well-organized manner.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | NCAA | Platform: Lincoln

You will also critically examine your speeches and presentations and those of others to improve upon your in-person and virtual presentation skills. Prerequisite: Public Speaking 1a: Introduction.

Grades: 09 10 11 12 | Non-Essential | Second Semester | Platform: eDynamic

Reading and Writing for Purpose: Navigating the Information Age Lord of the Rings - ED |

As you move through high school to college or to your career, the types of writing and documents become more high stakes. Real-world information can be journalistic and researched-based articles, legal, insurance, college entrance forms, employment, vehicle-related documents, and more. Learn how to critically read, write, and evaluate real-world writings to set you up for your future success.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: eDynamic

Reading for College Success - MV 🖈 🖳

How will reading affect a student's future? How does reading shape the world around us? This course helps students answer these questions and prepare for college and career success. Reading is a vital skill in the information age, when we are bombarded with a constant stream of information. Being able to determine and comprehend the main ideas in this constant flow is imperative to success both in the academic world and in the world of work. Learning to discern fact from opinion and bias from objectivity will empower students to make better life and work decisions, while effective note taking and summarizing skills help students achieve their goals in higher education and in the career of their choosing.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Michigan Virtual

Short Stories - LI |

Short Stories exposes students to the basic characteristics, writing style, and literary elements of a story. From characters, point of view, and setting to techniques such as suspense and irony, students learn how short stories provide readers with the opportunity to experience different storylines in a precise and defined format. Students become acquainted with the compact nature of the short story literary form and each author's ability to weave exciting, interesting narratives in such short, tight spaces. Students learn the importance of being concise, recognizing that good literature does not necessarily have to be lengthy in order to be captivating.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC VPAA | NCAA | Platform: Lincoln

Technical Writing - LI | 📮 | 💷

Written communication skills and documentation in the business environment are central to the Technical Writing course. This course enables students to understand a variety of documents and allows them to perfect their technical writing abilities. From journal writing, email, and directional writing to memos and letter drafting, students encounter numerous types of technical writing and build upon their technical skills and knowledge.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC VPAA | Platform: Lincoln

3D Art and Artists HS - GL | 🏻

Ranging from pottery, mosaics, glass-blowing, environmental art, 3D printing and more, this class introduces students to a vast variety of mediums, meant to inspire them for the endless possibilities three-dimensional art has to offer. Students will explore a vast variety of topics relating to three-dimensional art including the history, artists, materials and techniques. This online course delivers content through engaging assignments, quizzes and projects.

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

AP Art History A - MV | 🔲 | TEXAM

This course is aligned to the Advanced Placement curriculum for Art History. Students will examine major forms of artistic expression from the past and present and from a variety of cultures and will learn to look at these works of art critically, with intelligence and sensitivity, and to articulate what they see or experience. Schools must supply a proctor for the midterm and final exam. Course does not include the AP Exam; students can contact their school's AP Coordinator or the College Board to sign up to take the Exam. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC VPAA | Platform: Michigan Virtual

Applied Art HS - GL |

In this introductory art course, high school students will learn the basics of creating, viewing and appreciating artwork using the elements of art and the principles of design. The course begins with the 7 elements of art: line, shape, color, value, texture, form, space. The second portion of the course applies the elements of arts in creating the 7 principles of design: balance, contrast, emphasis, movement, pattern, proportion and variety. We will explore artwork that spans two and three dimensions, and a variety of mediums and artists that reflect these fundamentals. Through engaging with these concepts, students will strengthen their art vocabulary and develop an understanding of the ways in which these terms can be used and applied to all types of art. This virtual course delivers content through engaging assignments, fun activities and quizzes.

Grades: 09 10 11 12 | Non-Essential | Full Year | MMC VPAA | Platform: GLVP

Around the World with Art HS - GL| 💢 | 🏻

Embark on a global exploration, high school students! Each week, our journey takes us to a new destination across the globe, beginning with a brief dive into the local society, covering traditions, cuisine, wildlife, and geographic features. Once acquainted with the cultural backdrop, the heart of each unit lies in the immersive study of various artistic aspects. From exploring local artwork and influential artists to architectural marvels and understanding diverse styles, techniques, and artistic influences, each location becomes a canvas of creative discovery. This virtual course offers engaging lessons, assignments, and projects. Unleash your artistic potential as we navigate through the fascinating world of global cultures and creativity.

Art and Visual Culture A - LI |

Art and Visual Culture, students analyze and interpret artwork created by others, examine the concepts of aesthetics and art criticism, and explore the practical application of art in a variety of careers. Art and Visual Culture highlights drawing as a form of communication and introduces students to the elements of art and principles of design through hands-on activities. Students sharpen their observation skills using a variety of art media and become adept at using basic techniques and processes to depict the world around them. Furthermore, students express their thoughts and feelings through art practice and experimentation. This course prepares students to pursue art as an area of study.

Exploring Cinema HS - LI | 💂 | 💷

Exploring Cinema allows students to develop more advanced skills in film-making and cinematic productions. In this course, students continue to explore the technology used to create a film and begin to build an aesthetic appreciation of films. Students also explore media art and the ethics of media creation, giving them a wider perspective on the different ways material can be presented.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC VPAA | Platform: Lincoln

Film Studies: American Film Survey - MV | 🖳 | 💷 🖂

American Film Survey is an exciting journey through what is arguably this country's most influential and beloved art form: cinema. Among the classic film genres examined are film noir, western, comedy, military, epic, psychological drama and independent film. Through viewing, theory and written critique, the student follows the evolution of cinema within the context of our culture and history. Prominent directors and actors both contemporary and past are also highlighted. The culmination of this course prepares the student for more advanced film studies, promotes the development of written expression and analysis and encourages critical thinking with regard to the relationship between popular art and society. Prerequisites: None

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Michigan Virtual

Theatre Arts HS: Level 1 - GL | ★ | ♥

Learn the basics of theatre with Theatre Arts HS: Level 1! This online foundational course introduces high school students to the history and essential vocabulary of theatre. Students will learn stage techniques such as diction, pantomime, and movement while building confidence through video performance opportunities. We will experience works by major playwrights, exploring their themes and characters, and identify key plot tools that bring stories to life. Students will also begin their creative journey by drafting an original script. No prior theatre experience or prerequisites are required.

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

Theatre Arts HS: Level 2 - GL |

In this intermediate online course for second-year Theatre Arts HS students, we will expound upon foundational concepts, introducing more stage techniques like vocal dynamics, emotional expression, and physicality. Students will engage in deeper analysis of dramatic works, identifying characterization and narrative devices. Performance projects will practice acting skills and stage presence. By the end of the course, students will draft and workshop a more developed original script, showing their emerging growth as playwrights.

Grades: 10 11 12 | Non-Essential | Full Year | Platform: GLVP

Theatre Arts HS: Level 3 - GL

This intermediate online course for third-year Theatre Arts HS students emphasizes the interpretation of dramatic works within historical and cultural contexts, exploring the motivations of playwrights and the societal impact of their works. Students will refine performance techniques, focusing on improvisation, advanced movement, and detailed character development. In addition to performance projects, students will write, edit, and present a short, polished script as part of their exploration of the playwright's craft.

Grades: 11 12 | Non-Essential | Full Year | Platform: GLVP

S NEW Theatre Arts HS: Level 4 - GL | ♥

This advanced-level online course for the fourth-year Theatre Arts HS student will challenge students to synthesize their knowledge of theatre history, performance, and playwriting. Students will engage in in-depth analysis of dramatic literature, focusing on subtext, symbolism, and broader societal implications. Performances will highlight precision and artistry, with opportunities for solo and ensemble work. The culmination of the course is the creation of an original one-act play, demonstrating mastery of plot, characterization, and staging.

African American Literature - LI | 💂

African American Literature is a survey course that spans the history of America as it relates to the lives of African Americans. Students explore the forcible transport of individuals from Africa to America, the publication of narratives of enslaved men and women, the abolition of slavery under President Lincoln, the civil rights movement, and the presidency of Barack Obama. Students explore the powerful and influential roles that African Americans have played in U.S. history. They discover the contributions of African American activists, artists, and authors through literature and nonfiction texts such as biographies, autobiographies, memoirs, court cases, historical texts, and litigations.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | NCAA | Platform: Lincoln

Greek and Roman Mythology - LI |

In Greek and Roman Mythology, students explore myths from Greece and Rome. They examine the history of mythology and some of the key gods and goddesses. Students learn to connect the cultures of ancient Greece and Rome with the culture of today. Throughout this course, students use technology and artistic practices to express their knowledge. In addition, they explore vocabulary, literary, and narrative elements, in addition to writing through the lens of mythology. Students work through the process of writing myths of their own through planning, drafting, revising, and publishing.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | NCAA | Platform: Lincoln

Mythology and Folklore - ED| 🕇 | 💂

Since the beginning of time, people have gathered around fires to tell stories of angry gods, harrowing journeys, cunning animals, horrible beasts, and the mighty heroes who vanquished them. Mythology and folklore have provided a way for these colorful stories to spring to life for thousands of years and helped humans make sense of the world. Explore how these compelling tales continue to shape society even today.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: eDynamic

Tale Teller HS: Biographies, Diaries, and Autobiographies - GL |

Have you ever been captivated by someone's life story? In this exciting online elective course, students will explore exciting autobiographies, biographies, and diaries to uncover the art of storytelling through real-life experiences. They will examine various styles and formats, and have student discussions to understand what makes these narratives compelling and relatable. Students will learn how to speculate and investigate the psychology behind people's decisions and life choices, sparking intriguing and thoughtful analysis of famous writings such as the diaries of Anne Frank and Winston Churchill. As they dig deeper into the lives of influential figures and ordinary people alike, students will gain inspiration to craft their own narrative pieces. This journey will continue to empower students to express their unique voices while mastering the intricacies of personal storytelling! Students will create at least 2 writings per semester

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

The Lord of the Rings: An Exploration of the Films and Their Literary Influences - ED |

The Lord of the Rings is one of the most popular stories in the modern world. In this course, you will study the movie versions of J.R.R. Tolkien's novel and learn about the process of converting literature to film. You will explore fantasy literature as a genre and critique the three Lord of the Rings films.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: eDynamic

World Literature - LI | 🖳 | 💷

In World Literature, students explore a wide variety of literary styles, artists, and mediums from cultures and societies around the globe. Students analyze different forms of writing, including fiction and nonfiction, and they evaluate how authors from different areas, religious backgrounds, genders, and cultures use the written word to express thoughts and opinions and tell poignant stories.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | NCAA | Platform: Lincoln

AP Calculus AB - A - MV | 💂 | 💷

The course is aligned to the Advanced Placement curriculum for Calculus AB and covers calculus principles such as derivatives, integrals, limits, approximation, and applications and modeling. Students will gain experience in the use of calculus methods and learn how calculus methods may be applied to practical applications. Course does not include the AP Exam; students can contact their school's AP Coordinator or the College Board to sign up to take the Exam. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC Math Related | NCAA | Platform: Michigan Virtual

AP Calculus AB - B - MV | 💂 | 💷

The course is aligned to the Advanced Placement curriculum for Calculus AB and covers calculus principles such as derivatives, integrals, limits, approximation, and applications and modeling. Students will gain experience in the use of calculus methods and learn how calculus methods may be applied to practical applications. Course does not include the AP Exam; students can contact their school's AP Coordinator or the College Board to sign up to take the Exam. Business Mathematics A - LI | 💂 | 🗊 EXAM

In Business Mathematics, students discover a variety of basic mathematical concepts and tools for real-word mathematical application including algebraic equations, formulas, operations using fractions, decimals, and percentages. This course shows students how to work with percentages to solve application problems and how to research investment and insurance options. Students learn to graph a function from an equation, and they work with ratios and proportions. Additionally, students explore the proper methods of preparing and analyzing income statements and balance sheets. They also study the ways in which to calculate real estate loan payments, and they learn to read and interpret graphs to represent data in the business world. This course also discusses mean, median, and mode as it relates to the distribution of data.

Calculus A - LI | 💂 | 🗉 EXAM

Calculus evaluates higher-level mathematics through analytical/algebraic, numerical, graphical, and verbal methods. Students study various components of mathematics, including the investigation of trigonometric functions, probability, and series. Students will strengthen their skills with Pre-Calculus and Trigonometry concepts in preparation for post-secondary coursework. Having a strong calculus knowledge base supports all students, but mostly those students who are interested in careers in the mathematics and engineering fields.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC Math Related | NCAA | Platform: Lincoln

Math for College Success A - AL | 🖈 | 💂

Math for College Success is a course designed to help students prepare for College Algebra. The instructor administers an initial placement assessment. Based on the results, the instructor designs an individualized curriculum to meet the needs of each student. Throughout the course, the instructor will assign numerous additional assessments to re-direct each student on his/her individualized curriculum. The instructor will also give individualized instruction. The ALEKS curriculum will be used for this course.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC Math Related | Platform: ALEKS

Math for College Success B - AL |

Math for College Success B builds upon the individualized learning pathways developed in Math for College Success A. Students will continue to use the ALEKS curriculum as they deepen their mathematical understanding and enhance the skills needed for College Algebra. Using updated assessment results and demonstrated progress from Math for College Success B, the instructor will further customize instruction to target remaining gaps and extend learning. Students will receive individualized instruction and frequent formative assessments to adjust their personalized learning paths. The goal is to ensure readiness for College Algebra through a tailored, data-informed approach.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: ALEKS

Mathematics of Baseball - MV | 📮 | 💷 KAMM

In this course, students will learn about the mathematics found in baseball using Google Sheets as well as other tools and software. Topics will include a study in statistics, analyzing measures of central tendency as well as two-way frequencies tables. Students will work as a scout, analyzing rates and speeds as found in the sport and as general managers, analyzing trends and making math-based decisions. Students will also work as team managers, looking at probabilities of independent events and trends in data. Finally, students will research the history of baseball, and complete a culminating final project.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC Math Related | Platform: Michigan Virtual

Personal Finance HS - GL | 🖈 | 💂

This course will follow the Michigan Merit Curriculum for the new state standards to complete a 1/2 credit of Personal Finance. These content expectations address important decisions people must make in their lifetimes around earning, spending, saving, credit, investing, and insuring. These standards set the foundation on which a high-quality curriculum can be built that engages students in understanding the social and economic forces that impact individual and household financial decisions. Units include: Earning Income, Buying Goods and Services, Budgeting and Saving, Using Credit (paying for College), Financial Investing, Protecting and Insuring, Paying Taxes, and Banking Basics.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC | Platform: GLVP

Pre-Calculus A - LI | 💂 | 💷

In Pre-Calculus, students develop a deeper and more thorough understanding of functions and graphs. Graphs that students study range from polynomial and rational to exponential, logarithmic, and trigonometric. Some exponential and logarithmic topics discussed in this course are change of base formulas, properties of logs, growth and decay, and logistic growth models.

Probability and	Statistics -	LII	EXAM
I I UDADIII V AIIU	OLALISLICS -	1.71	

Students enrolled in Probability and Statistics build a strong foundation in calculating probabilities and evaluating statistics. The Probability and Statistics curriculum is designed to cover a half year of instruction but can be completed at each student's own pace. Students enrolled in the course explore representation of statistical data, working with scatter plots, analyzing statistical data using properties and theorems, and more.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC Math Related | NCAA | Platform: Lincoln

Trigonometry - LI | 🖳 | 🕮 EXAM

Trigonometry is offered for students who want to continue a rigorous study of mathematics. The course begins by reviewing the real number system, characteristics of functions, and solving equations. Topics from right-triangle trigonometry lead to an in-depth study of the unit circle and trigonometric functions, their graphs, and their inverses. In their study of analytic trigonometry, students verify identities and solve trigonometric equations. The course covers the Law of Cosines, the Law of Sines, and vectors. It closes with a complete study of conics, parametric equations, and polar curves. Before enrolling in this course, students should have completed Algebra II and Geometry.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC Math Related | NCAA | Platform: Lincoln

♦ Physical Education & Health **♦**

Fencing HS - GL |

The focus of high school Fencing is to build on the skills taught in middle school Fencing. Students will work to improve their knowledge in all three Olympic swords: foil, epee, and saber, while at the same time becoming more experienced in the competition system. This virtual course delivers engaging assignments, fun activities, and quizzes.

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

Health - LI | ★ | 💂 | @EXAM

In High School Health, students discover how to make conscientious decisions when attempting to improve their overall health and wellness. From healthy lifestyles, diets, and exercise to responsibilities within individual families and larger communities, topics within the health discipline are pertinent and applicable to all students. Throughout the course, students review concepts that promote safe, healthy, and active lifestyles.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC Health | Platform: Lincoln

Human Development and Family Studies - LI | 🖵 | 💷

Students in the Human Development and Family Studies course explore the basic information about human development, parenting roles and strategies, and functioning effectively within the family in today's changing and complex society. This course helps students to develop competencies related genetics, family types, and effective communication. They investigate the ways in which humans develop over their lifespan, human relationships, child care, and child abuse. Students also learn the importance of creating a nurturing and caring home environment.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Lincoln

Life Skills - LI |

Life Skills provides students with important information that will help them to lead independent and successful lives as adults. In this course, students focus on topics including personal finance, nutrition, and personal development. The useful skills students gain in this course will help them to become responsible and proactive young adults.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: Lincoln

SANSEW Muscles and Movement HS: Level 1 - GL | ♥

This online course will examine the basics and how anatomy plays a role in specific sports and daily fitness. The content will further expand knowledge on anatomy, locomotor skills, physiology, body awareness, etc. Students will have the opportunity to further explore a specific sport. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

Grades: 09 10 11 12 | Non-Essential | Full Year | MMC | Platform: GLVP

Muscles and Movement HS: Level 2 - GL |

This online course will examine how anatomy plays a role in specific sports and daily fitness. The content will further expand knowledge on anatomy, locomotor skills, physiology, body awareness, etc. Students will have the opportunity to further explore a specific sport. Students will benefit from added understanding of the virtual curriculum through the use of student-directed real life applications. This course delivers engaging lessons, assignments, and fun activities.

Grades: 10 11 12 | Non-Essential | Full Year | MMC | Platform: GLVP

Muscles and Movement HS: Level 3 - GL |

This intermediate online course will examine how anatomy plays a role in specific sports and daily fitness. The content will continue to expand and increase knowledge on anatomy, locomotor skills, physiology, body awareness, etc. Students will have the opportunity to further explore a specific sport. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

Grades: 11 12 | Non-Essential | Full Year | MMC | Platform: GLVP

Muscles and Movement HS: Level 4 - GL |

This advanced online course will examine how anatomy plays a role in specific sports and daily fitness. The content will continue to expand and increase knowledge on anatomy, locomotor skills, physiology, body awareness, etc. Students will have the opportunity to further explore a specific sport. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

Grades: 12 | Non-Essential | Full Year | MMC | Platform: GLVP

Nutrition and Personal Fitness - LI| ★ | 💂 | 💷

High School Nutrition and Personal Fitness helps students to recognize the impacts that nutritional choices and personal fitness play within their lives. Students learn practical ways to control their health through nutrition, exercise, and stress management. Students discover that physical fitness will help them to feel good.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC | Platform: Lincoln

Personal Wellness HS: Level 1 - GL |

This online course will help students to learn the basics about how to examine the direct correlation individual behaviors have on personal health. The content will help students to further analyze their overall health status through self-assessment. Some topics include goal setting, creating a nutrition plan and developing a personal fitness regimen. In addition, students will learn strategies that improve their long-range wellness. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

Personal Wellness HS: Level 2 - GL |

This online course will help students to take their skills and knowledge to the next level about how to examine the direct correlation individual behaviors have on personal health. The content will continue to help students to analyze their overall health status through self-assessment. Some topics include goal setting, creating a nutrition plan and developing a personal fitness regimen. In addition, students will learn strategies that improve their long-range wellness. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

Grades: 10 11 12 | Non-Essential | Full Year | MMC | Platform: GLVP

Personal Wellness HS: Level 3 - GL |

This intermediate online course will examine the direct correlation individual behaviors have on personal health. The content will continue to expand students' knowledge on how to further analyze their overall health status through self-assessment. Some topics include goal setting, creating a nutrition plan and developing a personal fitness regimen. In addition, students will learn strategies that improve their long-range wellness. This advance level online course will examine the direct correlation individual behaviors have on personal health. The content will continue to expand students' knowledge on how to further analyze their overall health status through self-assessment. Some topics include goal setting, creating a nutrition plan and developing a personal fitness regimen. In addition, students will learn strategies that improve their long-range wellness. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

Grades: 12 | Non-Essential | Full Year | MMC | Platform: GLVP

Sailing-Intro HS - GL | ★ | �

Gull Lake has a proud history as the top "sailing" lake in Western Michigan. Intro to Sailing will introduce students to the sport of sailing through a highly interactive and engaging online course. Learn about basic sailing skills such as key vocabulary terms and the rules of the sport. This course will center around building a strong base of understanding of the benefits of the sport of sailing and the different avenues sailing can provide for its participants.

Grades: 09 10 11 12 | Non-Essential | First Semester | Platform: GLVP

Sports and Fitness HS: Level 1 - GL | •

This online course will help students to learn the basics about how to examine the effects of exercise on the body. The content will further expand knowledge on proper principles and techniques necessary in designing an effective exercise program including nutrition and biomechanics. Rules, history and proper etiquette for various sports will also be learned. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

Sports and Fitness HS: Level 2 - GL |

This online course will help students to take their skills and knowledge to the next level about how to examine the effects of exercise on the body. The content will continue to further expand knowledge on proper principles and techniques necessary in designing an effective exercise program including nutrition and biomechanics. Rules, history and proper etiquette for various sports will also be learned. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

Sports and Fitness HS: Level 3 - GL |

This intermediate online course will examine the effects of exercise on the body. The content will continue to further expand and increase students' knowledge on proper principles and techniques necessary in designing an effective exercise program including nutrition and biomechanics. Rules, history and proper etiquette for various sports will also be learned. Students will benefit from added understanding of the online curriculum through the use of student-directed real-life applications. This course delivers engaging lessons, assignments, and fun activities.

Grades: 11 12 | Non-Essential | Full Year | Platform: GLVP

♦ Science **♦**

Agriscience I: Introduction - ED | 💂 | 🗉 EXAM

The word 'agriculture' often evokes images of farms, fields, and livestock, and while all of these representations are correct and essential, the field of Agriculture is so much more! In Agriscience I Introduction, you'll explore how agriscientists play key roles in improving agriculture, food production, and the conservation of natural resources along with the technologies used to keep the field thriving. Are you ready to explore the diverse careers in agriscience and how you can prepare to positively impact the planet? Let's get growing!

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

Agriscience II: Sustaining Human Life - ED | 🖳 | 💷

Science and technology are revolutionizing many areas of our lives - and agriculture is no exception! From aquaculture to genetic engineering, agriscience is finding new ways to better produce and manage plants, animals, and other natural resources. Let's delve deeper into important agri-areas such as soil science and weed management. And explore research on plant and animal diseases as well as the insects and other pests that can impact agricultural enterprises and natural resources. Science and technology are revolutionizing many areas of our lives - and agriculture is no exception! From aquaculture to genetic engineering, agriscience is finding new ways to better produce and manage plants, animals, and other natural resources.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

Anatomy and Physiology 1A: Introduction - ED| ★ | 💂 | 🕮

Whether you plan on pursuing a career in health sciences or simply looking to gain an understanding of how the human body works, you'll first need to understand the relationship between anatomy and physiology. Learn how to read your body's story through understanding cell structure and their processes, and discover the functions and purposes of the skeletal, muscular, nervous, and cardiovascular systems, as well as diseases that affect those systems.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

Anatomy and Physiology 1B: Discovering Form and Function - ED| ★ | 💂 | 🖭

Examine the form and function of even more body systems. Learn about the structure, function, and interrelation between the lymphatic, immune, respiratory, digestive, urinary, and endocrine systems. The reproductive system is also discussed along with hereditary traits and genetics. And discover the importance of accurate patient documentation as well as the technology used in the industry.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

AP Biology A - MV | 📮 | 🗉 EXAM

This course is aligned to the Advanced Placement curriculum for Biology. The course provides an overview of cell biology, evolution, genetics, ecology, as well as the structure and function of plant and animal systems. In AP Biology, students build the conceptual framework necessary to understand science as a process. Course does not include the AP Exam; students can contact their school's AP Coordinator or the College Board to sign up to take the Exam. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored.

Grades: 10 11 12 | Non-Essential | First Semester | MMC 3rd Science | NCAA | Platform: Michigan Virtual

AP Biology B - MV | A | EXAM

This course is aligned to the Advanced Placement curriculum for Biology. AP Chemistry A - MV | 📮 | 💷

This course is a full year of AP Chemistry including inquiry-based wet lab experiences. This AP Chemistry course is designed to be the equivalent of the general chemistry course usually taken during the first year of college. For most students, the course enables them to undertake, as a freshman, second year work in the chemistry sequence at their institution or to register in courses in other fields where general chemistry is a prerequisite. This course is structured around the six big ideas articulated in the AP Chemistry curriculum framework provided by the College Board. [CR2] A special emphasis will be placed on the seven science practices, which capture important aspects of the work that scientists engage in, with learning objectives that combine content with inquiry and reasoning skills. AP Chemistry is open to all students that have completed a year of chemistry who wish to take part in a rigorous and academically challenging course. Laboratory experiences are included within this course. This course does not include the AP exam; students can contact their school's AP coordinator or guidance counselor to sign up for the exam. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored.

AP Microeconomics - MV | 💂 | 💷 XAM

This single-semester course introduces students to the economic principles that apply to consumers and producers in an economic system and focuses on the nature and function of product markets, the study of factor markets and the role of government. Content in each lesson is presented in a variety of formats including a Textbook, videos and other internet resources. Students are given the ability to select from some, or all of these resources, based on their own learning preferences and needs. Regular practice opportunities allow students to gauge their understanding and preparedness before attempting graded quizzes and tests. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC Economics | NCAA | Platform: Michigan Virtual

AP Physics 1A - MV | 📮 | 💷

AP Physics 1 is an introductory college-level physics course designed to simulate the rigor and skills needed for a first year college course. The course is algebra based and the topics of study include Newtonian mechanics, work, energy, mechanical waves, sound, and simple circuits. This course also has a laboratory requirement that will be met with hands-on labs along with online simulations. The labs will be inquiry-based to provide students the opportunity to develop critical thinking and reasoning skills along with applying the science practices. This course does not include the AP exam; students can contact their school's AP coordinator or guidance counselor to sign up for the exam. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC 3rd Science | NCAA | Platform: Michigan Virtual

AP Physics 1B - MV | 📮 | 🖺 EXAM

AP Physics 1 is an introductory college-level physics course designed to simulate the rigor and skills needed for a first year college course. The course is algebra based and the topics of study include Newtonian mechanics, work, energy, mechanical waves, sound, and simple circuits. This course also has a laboratory requirement that will be met with hands-on labs along with online simulations. The labs will be inquiry-based to provide students the opportunity to develop critical thinking and reasoning skills along with applying the science practices. This course does not include the AP exam; students can contact their school's AP coordinator or guidance counselor to sign up for the exam. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored.

Grades: 09 10 11 12 | Non-Essential | Second Semester | MMC 3rd Science | NCAA | Platform: Michigan Virtual

In Astronomy, students begin by discussing basic astronomical concepts and discoveries throughout history. They take an in-depth look at the first moments of the universe by studying the Big Bang. From there, they investigate the evolution of the universe, beginning with the first atoms and moving on to explore elements, stars, solar systems, and galaxies. Students gather information to determine if there is a possibility of life on other planets and in other solar systems. Students analyze the major space missions that have led to the modern study of cosmology, and they explore the possibilities of where this field may take scientists in the future.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | NCAA | Platform: Lincoln

Astronomy B - LI | 🖈 | 🖵 | 💷

Bioethics - MV | ★ | 💂 | © EXAM

Bioethics is a one-semester course designed to raise student awareness of the social and ethical implications of life science, medicine, and biotechnology. This course focuses on building critical thinking and analytical skills using a variety of strategies and higher-order thinking opportunities appropriate to the resolution of controversial medical and scientific dilemmas. Topics include organ donation, the use of animals in medical research, healthcare coverage, and genetic engineering. Students enrolled in this course will build and use compassion and empathy skills to participate in healthy and safe text-based and video discussions.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: Michigan Virtual

Biotechnology 1A: Introduction - ED | 💷 | 🕮

Biotechnology is a cutting-edge, high-demand field that encompasses everything from plant and animal breeding to genetics. Discover how biotechnology has changed the world around us, from food to genetics. Explore historical applications with modern discoveries. Understand how regulations and ethics govern the course of biotechnology and learn of its importance to the field of medicine.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

Biotechnology 1B: Unlocking Nature's Secrets - ED | 💂 | 💷

Dig deeper into the world of biotechnology! Learn how and why biotechnology is so important to the agricultural, pharmaceutical, and genetic fields of study. You'll learn about mapping the human genome, the role of antibiotics, how medicine is created to combat diseases, and the future of the biotechnology field. It's time to explore the depth and breadth of this fascinating field!

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

In Earth Science A, students discover the theories about how Earth first formed. They explore Earth's history and the different geologic processes that continually take effect and help to shape the planet. Students debate the ways in which human impacts affect the Earth's climate. Earth Science A topics include climate, geologic activity, human impacts, and plate tectonics.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | NCAA | Platform: Lincoln

In Earth Science B, students study Earth as a body within the solar system and universe. They also review Earth's renewable and finite resources. Earth Science B topics include plate tectonics, resources & energy, atmosphere, and weather. The course concludes with a virtual tour of Earth's atmosphere and oceans.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | NCAA | Platform: Lincoln

Environmental Science introduces students to the scientific method, terrestrial and aquatic ecosystems, biomes of the world, tropic interactions, and nutrient and chemical cycles. Students analyze the human impact on the environment and ways to reduce negative consequences. Students investigate environmental issues first hand and use their discoveries to make environmental decisions for themselves.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | NCAA | Platform: Lincoln

Students enrolled in Forensic Science will develop a better understanding of the reality of forensic science, which is often contradicted by the fictional forensic science portrayed in entertainment. Students begin by exploring the history and background of forensic science. They discover several forensic science disciplines, such as pathology, anthropology, toxicology, serology, entomology, and odontology. Students learn and use proper lab practices, which ensure the integrity of any collected organic and inorganic evidence. Students investigate chromatography, spectroscopy, and microscopy techniques. This course teaches the proper handling of impression evidence, such as shoe print, foot, tire, lip print, firearm, and fingerprint impressions while students examine the analysis of trace evidence, including hair and glass. The course concludes with an exploration into the ways in which forensic science is interconnected with the legal system, as well as what the future holds for forensic science. It includes numerous hands-on labs, including measuring a hypothetical time of death, extracting their own DNA, and analyzing their own fingerprint impressions. Forensic Science is ideal for high school students who are interested in forensic science, biology, law, and/or criminalistics. Completion of one full year of high school Biology is required in order to evaluate the numerous biological concepts present in this course. In addition, students must be mature, independent learners and comfortable learning new technology. Please note: The concepts discussed in any forensic science course are intended for mature and responsible students only. Delicate and sensitive concepts related to forensic science will be discussed in a respectful and straightforward manner.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | NCAA | Platform: Lincoln

Fundamentals of Ecology - LI | 💂 | 💷

Fundamentals of Ecology allows students to explore the ways in which organisms interact with their surrounding environments. Students will investigate ecological principles, such as natural selection, population and population dynamics, biodiversity, and the sustainability of ecosystems. Students also analyze major ecological challenges and the different ways society is working to mitigate these challenges.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | NCAA | Platform: Lincoln

Great Minds in Science HS: Ideas for a New Generation - ED| ★ | 💂 | 💷

Does life exist on other planets? Will the issue of global warming ever be solved? Today, scientists, explorers, and writers are working to answer such questions. Like such famous minds from history as Edison, Einstein, Curie, and Newton, today's scientists are finding ways to revolutionize our lives and the world. Explore the extraordinary work of past individuals and how their ideas may very well shape the world of tomorrow.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

Introduction to Forestry & Natural Resources - ED | 💂 | 💷

Thriving forests are an essential part of the health of the planet, from our wildlife's ecosystem to providing humans with clean air to lumber and paper products. But forests cannot protect themselves and depend greatly on humans for conservation. Learn more about this meaningful relationship and how environmental policy, land use, water resources, and wildlife management all factor into current forestry issues. Forestry offers diverse professional opportunities, and for those concerned about the environment, it is a great choice.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

Introduction to Renewable Technologies - ED | \square |

Renewable Technologies are becoming increasingly important as concerns about climate change, the use of fossil fuels, and population growth become foremost in the public eye. So, how do we address the world's growing concerns about energy sources? Uncover the development of new energy technologies and explore how recent approaches to renewable technologies unlock the solution needed for a safer, cleaner and more enduring world.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

Marine Science 1A: Introduction - ED | 🖵 | 💷

From tiny puddles to vast oceans, water allows for processes that impact all things around us from wildlife and the air we breathe to our health and more! In this course, you will examine the essential nature of water and how its special properties support all life on Earth. Through the lens of the Scientific Method, you will engage with scientific inquiry to study aquatic ecosystems and how water, land, and weather all work together to create unique living environments. You will also learn about scientists who were critical to aquatic science and how to form valid and reliable conclusions from your study of water like they did. Let's dive in and see what makes water vital to life.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

Marine Science 1B: Our Blue Planet - ED | 🖳 | 💷

Water is the flowing lifeline of the Earth, and it impacts the life of every living creature. But have you ever stopped to think about human' impact on water? In this course, you will discover more about the role we play in both threatening and protecting water sources. You will explore climate change and other events that concern Earth's water sources and expand your knowledge of marine science careers. You will also plan and execute a cumulative research project exploring an aquatic environment near you using the Scientific Method. Let's dive in and continue your exploration of the World's water!

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

Medical Terminology 1A: Introduction - ED | ★ | 💂 | 🕮

Learning the language is essential for careers in health science. Join word parts to form medical terms, associations within body systems, and better communicate with colleagues and patients. Build your proficiency and confidence with this course and prepare yourself for a career in health sciences.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

Medical Terminology 1B: Discovering Word Foundations - ED| ★ | 💂 | 🕮

Discover the medical terminology associated with even more body systems to increase your ability to master prefixes, suffixes, and roots. Connect this language to real-world patients and clinical settings through practical applications and specific scenarios. Launch your health knowledge with detailed medical terms.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

This is semester one of a two-semester course in Oceanography. Students receive an introduction to oceanography including the history of marine science, a discussion of the origin of life (including the Big Bang Theory) and its connection to the ocean, an exploration of the energy of life, and an introduction to ocean life including simple life, invertebrates, and vertebrates. Students explore these topics through a variety of content including an etextbook, videos, and interactives. Each lesson includes a quiz or assignment and each unit culminates in a unit project and unit test. Through the lesson assignments and unit projects, students will demonstrate their knowledge in a variety of ways including presentations, creative projects, hands-on activities, writing and more. Prerequisites: None.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | NCAA | Platform: Michigan Virtual

This is semester two of a two-semester course in Oceanography. Students continue the survey of Oceanography begun in Oceanography A course by exploring such topics as air and sea interaction, ocean currents, tides, ecosystems, ocean resources, pollution and conservation. Students explore these topics through a variety of content including an etextbook, videos, and interactives. Each lesson includes a quiz or assignment and each unit culminates in a unit project. Through the lesson assignments and unit projects, students will demonstrate their knowledge in a variety of ways including presentations, creative projects, hands-on activities, writing and more. Prerequisites: Oceanography A.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | NCAA | Platform: Michigan Virtual

Physical Science are introduced to the principles of chemistry and physics so that they may develop a better understanding of atoms, chemical reactions, and nuclear interactions. Students explore the properties and states of matter and investigate chemical bonds and reactions. Students will investigate the development of the periodic table, an outline of modern atomic theory, and organic and nuclear chemistry. Additionally, students study Newton's laws of motion while considering the interactions between motion, forces, energy, and thermodynamics. As a prerequisite to Physical Science, students must have completed Algebra I and must possess basic spreadsheet, word processing, and presentation software knowledge.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | NCAA | Platform: Lincoln

☑ NEW Plants: A Global Perspective HS - GL | **②**

This online course will provide a rich understanding of the importance of plants and herbs globally, fostering appreciation for biodiversity and cultural heritage. It will encourage sustainable practices and inspire students to explore the connections between nature, culture, and health. This interactive online course is packed with engaging lessons, quizzes, fun projects and resources.

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

Principles of Agriculture, Food and Natural Resources - ED | 💂 | 🕮

Did you know that the world's population could be 11 billion people by 2050? With a growing population, how do we keep everyone fed? This is where the importance of agriculture, food, and natural resources comes in! Gain a stronger sense of how we can maximize the foods and natural resources the earth provides. Learn more about agriculture's history, animal husbandry, plant science, and natural resources, and you'll be better prepared for your part in sustaining the world.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: eDynamic

Sports Medicine - LI | ★ | 💂 | @EXAM

Sports Medicine provides students with basic knowledge of the history of sports medicine, the anatomy of the body, and the common injuries that occur in sports. In addition, the course discusses techniques used in sports medicine to train and strengthen the body, treatments for injury and disease, and proper nutrition for athletes. Prerequisites: Students must possess basic word processing and presentation software knowledge and completion of one full year of high school Biology is required in order to evaluate the numerous biological concepts present in this course.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: Lincoln

Survey in Nature HS: Natural Systems - GL | 🖈 | 🍳

This online course is designed for a high school student to become familiar with scientific terminology and methods as they participate in scientific inquiry. Students will apply information learned to hands-on activities. Students will complete weekly assignments, as well as weekly quizzes and a comprehensive test each semester. A variety of topics from nature will be explored. Topics covered include chemical reactions, animal cell structure and function, forensic science, acids and bases, layers of the earth, oceanography, and meteorology. This course is designed for students to learn about science in a fun and engaging way.

Veterinary Science: Animal Care - MV | ★ | 💂

As animals play an increasingly important role in our lives, scientists have sought to learn more about their health and well being. Taking a look at the pets that live on our homes, on our farms, and in zoos and wildlife sanctuaries, this course will examine some of the common diseases and treatments for domestic animals. Toxins, parasites, and infectious diseases impact not only the animals around us, but at times, we humans as well! Through veterinary medicine and science, the prevention and treatment of diseases and health issues are studied and applied. Prerequisites: None

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC 3rd Science | Platform: Michigan Virtual

Veterinary Science: The Care of Animals - ED| ★ | 💂 | 🖭

Whether you want to step into the wild side of veterinary medicine or just take care of loveable dogs and cats, explore how to care for domestic, farm, and wild animals, diagnose their common diseases and ailments, and learn about different veterinary treatments. If you have always been drawn to the world of our furry, scaly, and feathered friends, this is the course for you!

1960s America - LI | 🖳 | 💷

1960s America course gives students a look at life during this exciting and monumental decade. This course covers the social, political, and cultural movements and changes that occurred in the 1960s. Students explore different historical events and determine how these events impacted American citizens during the decade and afterward. The course also focuses on significant headlines of the 1960s to give students a realistic perspective of this decade.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | NCAA | Platform: Lincoln

African American History - LI | 🖵 | 💷

African American History is a survey course that spans the history of America, including ancient African society and culture through the presidency of Barack Obama. Students examine the African American struggle to secure their constitutional rights. This course explores the powerful and influential role of African Americans in U.S. history.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | NCAA | Platform: Lincoln

Anthropology I: Uncovering Human Mysteries - ED 💢 🖳 🕮

What makes us human? Is it our ability to use language, tools, or technology? Trace the history of homo sapiens and explore our evolutionary trail through an anthropologic lens to observe our movement from cave dwellers to modern humans. Learn how we forged our way and developed all of the things that make us humans, such as our cultures, languages, and religions.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | Platform: eDynamic

AP Human Geography A - MV | 🔲 | 🕮 EXAM

In this college level course, students will systematically study the geographic patterns and processes that have shaped our understanding, use, and alteration of Earth's surface. Students will employ spatial concepts and landscape analysis to examine human social organization and its environmental consequences, and will also learn about the methods and tools geographers use in their science and practice. Students will prepare to take the College Board Advanced Placement Human Geography Examination and possibly receive college course credit. This course is rigorous, fast paced, and requires extensive reading and writing. Students will learn how to approach both the multiple-choice questions and the free-response questions on the AP Exam. In addition, students will engage in class discussions and apply concepts learned to aspects of the real world. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored.

Grades: 09 10 11 12 | Non-Essential | First Semester | NCAA | Platform: Michigan Virtual

Grades: 09 10 11 12 | Non-Essential | Second Semester | NCAA | Platform: Michigan Virtual

This single semester course introduces students to the economic principles that apply to an entire economic system and focuses on the study of national income and price-level determination as well introducing students to economic performance measures, the financial sector, stabilization policies, economic growth and international economics. Content in each lesson is presented in a variety of formats including a Textbook, videos and other internet resources. Students are given the ability to select from some, or all of these resources, based on their own learning preferences and needs. Regular practice opportunities allow students to gauge their understanding and preparedness before attempting graded quizzes and tests. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | MMC Economics | NCAA | Platform: Michigan Virtual

This course is designed to meet the expectations of the College Board. According to the College Board, The AP Psychology course is designed to introduce students to the systematic and scientific study of the behavior and mental processes of human beings and other animals. Students are exposed to the psychological facts, principles, and phenomena associated with each of the major subfields within psychology. They also learn about the ethics and methods psychologists use in their science and practice. This course covers the following units: History and Approaches, Research Methods, Biological Bases of Behavior, Sensation and Perception, State of Consciousness, Learning, and Cognition. Students will learn how to approach both the multiple-choice questions and the free-response questions on the AP Exam. In addition, students will engage in class discussions and apply concepts learned to aspects of the real world. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored.

This Advanced Placement World History course is commensurate with an introductory college-level course. The course focuses on developing greater understanding of the processes, contacts, interactions, and ideas that have shaped the world, with an emphasis on non-Western history. This course meets the guidelines outlined in the College Board's AP World History Curriculum Framework and incorporates changes required for course content and the AP World History Exam. The course relies heavily on readings and primary source materials. A special emphasis is placed on historical writing through expository essays, in both short- and long-answer form, and document-based questions. The scope and rigor of this AP World History course will offer students the knowledge and skills required for success on the College Board AP World History Exam in May. It will prepare students for success in college and beyond by developing critical and analytical thinking skills. Students receive rigorous practice in note-taking, assessing sources, making inferences, drawing conclusions, conducting research, and communicating information. This AP World History course includes 12 units of instruction delivered across two semesters and includes high-quality instructional experiences. Most materials are delivered electronically. Students explore history topics, engage in virtual discussions with peers and teachers, and attend synchronous sessions. The course offers a wide variety of instructional activities, including debates, simulations, a mock trial, and research assignments. Assessments occur at regular intervals to monitor learning progress. They are designed to prepare students for the AP World History Exam with multiple-choice questions, short-answer essay questions, document-based essay questions, and long-answer essay questions that measure student skills with assessing continuity and change-over-time, comparison, causation, and periodization. First semester topics range from the development of human history in prehistoric times through

Political	Science -	TIL		(■ EXAM
Ponucai	Science -	LI	_	EVAIN

Political Science is an introduction to political science as an academic discipline. Students discover the origin, creation, and function of different political systems within the United States and across the globe. Students explore political theories, such as systems theory and the social contract theory. Additionally, students examine economic concepts, how countries interact with one another, international governmental organizations and nongovernmental organizations, and the role of media in politics while developing skills in research methodology.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | NCAA | Platform: Lincoln

In Psychology, students explore the science of explaining and controlling human behavior. Psychology plays an integral part in everyday life because all decisions, relations, and emotions are closely tied to behavior and genetics. Within this course, students look at behavior, and they consider prominent psychologists who have made impressive and monumental discoveries through testing, research projects, and proving theories. Students study everything from the anatomy of the brain to psychological disorders.

Grades: 09 10 11 12 | Non-Essential | First or Second Semester | NCAA | Platform: Lincoln

Sociology - LI | 🖵 | 🕮 EXAM

In the Sociology course, students explore the various topics and sociological terminology necessary for understanding and exploring the field. Students investigate major sociological perspectives and the famous sociologists who invented and contributed to them. Additionally, students determine how researchers perform valid and reliable sociological studies. This course is ideal for students who are interested in pursuing post-secondary careers in sociology, psychology, law, or other social sciences.

♦ World Language **♦**

American Sign Language 1A - MV | 📮 | 💷 EXAM

This is the first course in a two-course sequence and focuses on everyday communication in American Sign Language for the Deaf. It introduces students to the basic signs, techniques, and cultural knowledge, which will support the students to start signing beginning level conversational ASL. Each lesson is built upon a familiar topic such as family, self and friends so that students will find meaningful connection to the lessons. Students will be asked to use various media tools including online resources, online dictionaries, a web cam, and the web based audio-visual tool VoiceThread to master the content presented in the course. Students will be producing their own signing videos to demonstrate their learning. The goal of this course is to help develop fundamental ASL skills, and to understand Deafness, knowledge, and interest that students will need to advance to the higher levels of ASL courses.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC World Language | NCAA | Platform: Michigan Virtual

American Sign Language 1B - MV | 🖵 | 💷

This course is the second in a two-course sequence. Topics addressed in the course include information about the Deaf culture, communication problems associated with deaf individuals, and the linguistic heritage of the Deaf community and its influence on our own culture. The online text includes many videos that include role-playing conversations as well as vocabulary. There will be live sessions using a web cam during which time students will demonstrate a mastery of general sign vocabulary along with producing their own conversations.

Grades: 09 10 11 12 | Non-Essential | Second Semester | MMC World Language | NCAA | Platform: Michigan Virtual

American Sign Language 2A - MV | 🖵 | 💷 🖂

This is the first course of the second year ASL courses and must be taken after the successful completion of the first year ASL courses. This course continues to focus on everyday communication in ASL by introducing students to the basic signs, techniques and culture. To help develop receptive skills without relying on lip movements of the signers, the signing videos will be all voice off. To develop expressive skills, students will continue to express their thoughts in signs within the given context in the lessons. Through the introduction to some of the higher ASL techniques such as classifiers and indexing, this second year courses is designed to helps students to develop an understanding that ASL is a visual language that delivers one's ideas and thoughts using more than the individual signs. Students will continue to use various media tools including online resources, online dictionaries, a web cam and the web based audio-visual tool VoiceThread to master the content presented in the course.

American Sign Language 2B - MV | 🖵 | 🕮

This is the second course of the second year of ASL courses. The course continues to focus on useful communication that students should be able to carry out in ASL. Students study the basic signs and phrases, techniques, and cultural nature of the language. This course introduces the students to the new concept of conceptually accurate signing that places emphasis on awareness of differences between ASL and English. Lesson topics shift from the everyday interaction in one's immediate environment to interactions in the community to help students to build signing skills for obtaining and providing information rather than simply exchanging information. To support students build the conceptual accuracy, the lessons stress ASL classifiers; students will be challenged to receptively identify some of the most common classifiers in contexts, and to apply them in their own signing. As a part of culture learning, students will continue to learn more facts about the Deaf culture as well as current and past challenging social issues. The signing videos will be all voice off to help develop students receptive skills without reading lips. Students will continue to produce their own signing videos to demonstrate their learning. The goal of this course is to help utilize the fundamental ASL skills and knowledge into simple interpersonal and social interactions, and to build confidence needed to advance to the higher levels of ASL courses.

In the ASL 2 Proficient level, we'll move into more advanced topics, detailed, age-appropriate vocabulary, short stories about ourselves and others, and learning about Deaf culture and history.

Grades: 09 10 11 12 | Non-Essential | Full Year | Platform: GLVP

At this level, students prepare for the Advanced Placement (AP) Chinese Language and Culture Exam. Students continue to develop their integrated skills of listening, speaking, reading and writing, and will be guided to pay more attention to their usages in interactive daily life and formal settings. Meanwhile, students will deepen their knowledge of Chinese culture through Chinese history, Chinese literature and arts. Harvest Shouhuo is the primary textbook used in this course, along with other supplementary materials, such as AP practice test, Chinese stories, newspaper articles and video clips. The course engages the students in an exploration of both contemporary and historical Chinese, including topics as travelling, famous people and history, literature and arts. The course is delivered entirely online in Chinese. Students will acquire more sophisticated linguistic elements to increase their language abilities. Language skills are enhanced through interpretive, interpersonal, and presentational activities. Listening skills are developed during class discussions, listening exercise, watching video clips movies, etc. Reading skills are improved through various readings of essays and articles, newspaper articles, advertisements, biographies, plays, and poetry. Speaking skills are practiced through debates, pair and group discussions, acting from scripts and interview. Written strategies are introduced to guide students organizing the compositions; students practice the written skills through bi-weekly compositions. To help students get familiar with the test format, assignments designed in AP exam format and the previous AP exams are provided. Students are frequently assessed on character-handwriting skill, vocabulary usage, expressive abilities and listening and comprehension skill. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored. Prerequisites: Chinese 4A, 4B or equivalent level of Chinese with proficiency of 1600-2000 Chinese words.

AP Spanish A - $MV \mid \square \mid \square$

This course is aligned to the Advanced Placement curriculum for Spanish Language. AP Spanish is an advanced language course in which students acquire proficiencies that expand their cognitive, analytical and communicative skills. The AP Spanish Language and Culture course prepares students for the College Board's AP Spanish Language and Culture exam. It uses as its foundation the three modes of communication (Interpersonal, Interpretive and Presentational) as defined in the Standards for Foreign Language Learning in the 21st Century. The course is designed as an immersion experience and is conducted almost exclusively in Spanish. In addition, all student work, practices, projects, participation, and assessments are in Spanish. The course is based on the six themes required by the College Board: Global challenges, Science and technology, Contemporary life, Personal and public identities, Families and communities, and Beauty and aesthetics. The course teaches language structures in context and focuses on the development of fluency to convey meaning. Students explore culture in both contemporary and historical contexts to develop an awareness and appreciation of cultural products, practices, and perspectives. In addition, students participate in a forum where they are able to share their own opinions and comments about various topics and comment on other students' posts. The course also makes great use of the Internet for updated and current material. In order to maintain the integrity of AP standards, all AP course midterm and final exams must be proctored.

Grades: 09 10 11 12 | Non-Essential | Second Semester | MMC World Language | NCAA | Platform: Michigan Virtual

This course, the first in a two-course sequence, is designed for students who are new to the Chinese language. In this course, students will work on Chinese pronunciation (Pinyin) system, basic communication competency through conversations about topics such as personal characteristics and appearance, family and friends, information, travel planning, ordering foods in restaurants, discussing class schedules, and identifying directions. With the help of our multimedia e-textbook, students will complete daily learning tasks independently while attend mandatory weekly synchronous lab sessions to elaborate on and clarify their independent learning experience. Prerequisites: None.

Chinese 1B - MV | 📮 | 🕞 EXAM

This course is the second in a two-course sequence. In this course, students will work on basic communication competency through conversations about topics such as exchanging personal and family information, making travel arrangements, ordering foods in restaurants, discussing class schedules, making phone calls, reading maps and reserving rooms in a hotel. With the help of our multimedia e-textbook, students will complete daily learning tasks independently while attend mandatory weekly synchronous lab sessions to elaborate on and clarify their independent learning experience. Prerequisites: Chinese 1A - Mandarin.

Grades: 09 10 11 12 | Non-Essential | Second Semester | MMC World Language | NCAA | Platform: Michigan Virtual

Chinese 2A - MV | 📮 | 🗏 EXAM

This course is the first in a two-course sequence and is designed for students who have mastered some basic Chinese knowledge and skills such as pinyin, Chinese character input and 300 Chinese fundamental words either in pinyin or character. This course focuses on taking students from a tentative understanding of Chinese basics to a greater level of sophistication by having students participate in sentence-level conversations about topics such as writing letters/emails, asking directions, asking for help, seeing a doctor, ordering foods, bargaining, talking about hobbies and traffic, and describing cloth wears. Their language learning will be naturally embedded in rich cultural contexts through the multimedia e-textbook. Cultural topics will cover Sichuan opera, Chinese senior center, Natural Scenic Spot of Jiuzhai Valley, Taoism, and Chinese medicine. For this course, students are required to take an hour's language lab per week and interact with their instructor through Blackboard and email for asynchronous learning on the other school days. Prerequisites: One year of high school level Mandarin Chinese.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC World Language | NCAA | Platform: Michigan Virtual

Chinese 2B - MV | 📮 | 🕞 EXAM

This course is the second in a two-course sequence and is designed for students who are able to carry on basic Chinese conversations in real-life situations and read simple dialogues and short paragraphs. In this course, students will continue to consolidate their sentence-level communication competency through communicative task-based learning about topics such as talking about Chinese traditional sports and popular sport matches, purchasing tickets, borrowing/returning books at libraries, talking about favorite music/musical instrument/bands, travelling, hotel check-in, weather and the Spring Festival. They will deepen their knowledge of Chinese cultures by following the multimedia e-textbook to learn about topics such as the Spring Festival customs, Chinese dining etiquette, Chinese garden, Chinese painting and related geographic spots in southeast China. Prerequisites: Chinese 2A - Mandarin.

Grades: 09 10 11 12 | Non-Essential | Second Semester | MMC World Language | NCAA | Platform: Michigan Virtual

Chinese 3A - MV | \begin{align*} \Boxed{\text{EXAM}}

This course is the first in a two-course sequence and is designed for students who are able to express themselves in simple Chinese, read short passages, and create simple Chinese dialogues. Throughout the course, students will develop their ability to use more advanced vocabulary and more complex sentence structures to express themselves by accomplishing task- and project- based language learning activities. Curriculum will be focused on describing people's physical distinctions, physical locations/layout of different places, comparing and contrasting different cities, discussing generation gaps, talking about weekend plans, long-term goals, holidays, gifts, recipes, wedding, and hobbies. And related cultural topics are incorporated in each unit to help students form better insights into the cultural differences. Prerequisites: Two years of high school level Mandarin Chinese.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC World Language | NCAA | Platform: Michigan Virtual

Chinese 3B - MV | 📮 | 💷

This course is the second in a two-course sequence and is targeted to students who can infer meaning from contexts and use learned knowledge to conduct fundamental dialogic communication with others in Chinese around the general topics. This course will help students further develop their four major language skills by teaching them to use the key words and sentence structures to make comments on such topics as proposing travel destinations, describing friends, social network and birthday parties, talking about Chinese Kongfu, animal protection, ideal universities and professions. Students will work on a variety of task-based projects that prepare them for more complex Chinese communication and better understanding of the typical Chinese culture. Prerequisites: Chinese 3A - Mandarin.

This course is the first in a two-course sequence. In this course, students continue to develop their vocabulary and understanding of grammar by focusing on its usage in daily experiences. Cultural study continues to serve as a contextual backdrop of language, but greater emphasis is placed on culture as a subject of study and as a way of understanding China's past and present. In addition, concrete requirements are specified for Chinese Character learning and writing. This course helps students continue their preparation for the Advanced Placement (AP) Chinese Language and Culture Exam administered by the College Board and is taught by a native Chinese instructor. Prerequisites: Three years of high school level Mandarin Chinese.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC World Language | NCAA | Platform: Michigan Virtual

Chinese 4B - $MV \mid \square \mid \square$

This course is the second in a two-course sequence. In this course, students continue to develop their vocabulary and understanding of grammar by focusing on its usage in daily experiences. More formal speech and written-style language will be introduced. Cultural information will be integrated within the teaching of reading, writing, and speaking. In addition, concrete requirements are specified for Chinese Character learning and writing. Students are expected to rely more on characters without Pinyin. This course helps students continue their preparation for the Advanced Placement (AP) Chinese Language and Culture Exam administered by the College Board and is taught by a native Chinese instructor. Prerequisites: Chinese 4A - Mandarin.

German 1A - MV | 🔲 | EXAM

German 1A is the first semester of a two-semester course. In German 1A, students will begin their language-learning journey by gaining the skills needed to talk about themselves and their immediate environment. Students will learn to introduce themselves, share some basic personal information, talk about their family and friends, discuss what they like to do for fun, and describe their daily routine at home and school. The class takes a proficiency-based approach, which is informed by current language acquisition research and the ACTFL performance descriptors for novice language learners. A heavy focus is put on German-speaking cultures around the world, with grammar being learned implicitly through input and meaning-based activities. Throughout the 4 Modules, each containing 3 units, students' language learning is guided by Can Do statements which focus on specific language abilities, such as 'I can greet others and introduce myself.' Prerequisites: None.

German 1B - MV | 📮 | 📴 EXAM

German 1B is the second semester of a two-semester course. In German 1B, students will continue their language-learning journey by gaining the skills needed to talk about themselves, their immediate environment, and German-speaking communities. Students will learn to share some basic personal information about topics including healthy eating habits, family traditions, and pop culture preferences. In addition, students will gather information about a German-speaking community and use this information for a presentation. To prepare for this students will gain the skills necessary to discuss culture, geography, and governments. The class takes a proficiency-based approach, which is informed by current language acquisition research and the ACTFL performance descriptors for novice language learners. A heavy focus is put on German-speaking cultures around the world, with grammar being learned implicitly through input and meaning-based activities. Throughout the 4 Modules, each containing 3 units, students' language learning is guided by Can Do statements which focus on specific language abilities, such as 'I can greet others and introduce myself.' Prerequisites: Michigan Virtual German 1A or at least 1 semester of introductory German.

Grades: 09 10 11 12 | Non-Essential | Second Semester | MMC World Language | NCAA | Platform: Michigan Virtual

German 2A - MV | 📮 | 🔳

This course is the first in a two-course sequence. Students continue their study of German by focusing on the four key areas of foreign language study: listening, speaking, reading, and writing. Each unit consists of a new vocabulary theme and grammar concept, reading and listening comprehension activities, speaking and writing activities, multimedia cultural presentations, and interactive activities and practices which reinforce vocabulary and grammar. There is a strong emphasis on providing context and conversational examples for the language concepts presented in each unit. Prerequisites: German 1B.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC World Language | NCAA | Platform: Michigan Virtual

German 2B - MV | 🖵 | 💷

Japanese 1A - MV | 📮 | 🔳 EXAM

This is the first course in a two-course sequence and focuses on the most widely used Japanese syllabic writing system (Hiragana) and greetings and phrases used in everyday communication and contemporary Japanese cultures. Lessons are built upon familiar topics such as self, family, school, and friends to provide meaningful contexts to develop everyday conversation skills. Each lesson is designed to help students learn Hiragana gradually through decoding words and reading to speak conversational expressions. The course includes audio and video learning objects to demonstrate native Japanese speaker's pronunciation, which supports students in building their interpersonal and interpretive fluency in Japanese. This course targets the Novice Level of MI World Language Standards and Benchmarks. Prerequisites: None.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC World Language | Platform: Michigan Virtual

Japanese 1B - MV | 📮 | 🕮

This is the second course in a two-course sequence. While it continues focusing on practical everyday communication skills and contemporary Japanese cultures, the course introduces the second widely used Japanese syllabic writing system, katakana. Lessons are built upon familiar topics such as self, family, school, and friends to provide meaningful contexts to develop everyday conversation skills. Each lesson is designed to help students learn katakana gradually as students work to master the first syllabic system hiragana through decoding words and reading to speak conversational expressions. The course includes audio and video learning objects to demonstrate native Japanese speaker's pronunciation, which supports students in building their interpersonal and interpretive fluency in Japanese. It is also designed for students to experience and appreciate the third writing system, kanji. This course targets the Novice Level of the Michigan World Language Standards and Benchmarks. Prerequisites: Japanese 1A.

Japanese 2A - MV | 📮 | 💷

This course is a continuation of a beginning level course that will introduce the student to a variety of areas of language learning. In this course, the student will learn listening, speaking, reading and writing skills through activities that are based on pedagogically proven methods of foreign language instruction. Throughout the five units of material (Daily Life, Animals, Activities, The Body and Descriptions), students learn to express themselves using an ever increasing vocabulary, a larger variety of verb tenses and adjectives. Grammar is introduced and practiced in innovative and interesting ways with a variety of learning styles in mind. Cultural information in the course will teach the student about Japanese culture, people, society, and history. The course is aligned to the national Foreign Language standards and provides a way to focus on the five important aspects of foreign language instruction: communication, culture, connections, comparisons and community. These are the 'Five C's of the Foreign Language Education' as outlined in Standards for Foreign Language Learning: Preparing for the 21st Century. Prerequisites: Japanese 1B.

Grades: 09 10 11 12 | Non-Essential | First Semester | MMC World Language | NCAA | Platform: Michigan Virtual

Japanese 2B - MV | 🔲 | 💷 |

This course is the second in a two-course sequence. Japanese 2B focuses on more advanced communication skills in the language through activities that involve speaking, writing, listening and reading. Students delve more deeply into various aspects of Japanese culture. Students are exposed to kanji that relate to the topics studied. Most readings are provided in both a basic form and a more advanced format so that students can learn to recognize kanji in context. Students are encouraged to incorporate appropriate kanji in their own writing. Cultural information in the course will teach the student about Japanese culture, people, society, and history. The course is aligned to the national Foreign Language standards and provides a way to focus on the five important aspects of foreign language instruction: communication, culture, connections, comparisons, and community. These are the 'Five C's of the Foreign Language Education' as outlined in Standards for Foreign Language Learning: Preparing for the 21st Century. Prerequisites: Japanese 2A.

Latin 1A - MV | 🔲 | 🗉 EXAM

This course is the first in a two-course sequence. Building the Via Latina: You are about to build a Roman road, the Via Latina. This road will be the foundation for your study of Latin and the culture of ancient Rome. Famous Romans from the past have agreed to be your supervisors. They will invite you to dinner, regale you with stories from mythology, introduce you to other Romans, show you around their homes, entertain you at the chariot races or the gladiatorial fights, and give you a look at what it meant to be a Roman politically, socially and economically. Your task is to learn Latin, the language of the Romans. So let's start the building process and find out how different and yet how similar our worlds really are. Prerequisites: None.

Latin 2A - MV | \square | \square

This course is the first in a two-course sequence. Welcome, movie star! You will continue your journey to the time of the ancient Romans, but this time you will be the star in our movie, 'An Epic of Great Proportion.' With your director, your script will include visits with some of the men who made Rome great. From them, you will learn about the Roman government and how Rome grew to rule most of the known world. Your epic movie will also take you back to the Trojan War where you will accompany the Greeks on a great adventure. Study your lines and get ready for 'lights, camera, action!' Prerequisites: Latin 1B.

Spanish 4A - MV | 📮 | 🗏 EXAM

This is the first semester of a two semester course in Spanish 4. The main objective of the Spanish IV course is to develop student's interpersonal communication skills in Spanish. The fundamental objective is for the students to achieve a high level of ability in listening, speaking, reading and writing. In this course students develop a strong command of the Spanish language, with proficiency in integrating language skills and synthesizing written and aural materials, the formal writing process, extensive interpersonal and presentational speaking and writing practice, and aural comprehension skills through quality, authentic, and level-appropriate audio and video recordings. This objective is achieved through highly engaging course content and interactive simulations, which give students ample opportunities throughout the course to integrate reading, writing, and speaking. Students are exposed to literature, historical and current events of Spanish-speaking countries through authentic newspapers and magazines, music, movie, radio and television productions, literary texts, and virtual visits online. Students will also use Spanish to access information and to compare and contrast cultural elements of Spanish-speaking countries with their own. Content and assignments are presented in the target language. Grammar concepts are presented in English also. Students are required to contact their instructor to schedule two live speaking assessments during the course. Prerequisites: Spanish 3 or equivalent.

Spanish I A - LI | 🖳 | 🗉 EXAM

Spanish I provides students with a strong foundation of the Spanish language and its cultural influences. From pronunciation to basic grammar and practical vocabulary, students gain a fundamental understanding of written and conversational Spanish. Students practice pronunciation sounds, greetings and introductions, questions, and present-tense verb conjugation. Students learn how to describe people, school, and pastime activities in addition to likes and dislikes. Spanish I presents information in a fun, interesting format that promotes learning and draws a link between the classroom and real-world situations.
